RESEARCH STATEMENT

Dr. Gawron's primary research focus is leveraging biomedical informatics tools to improve reproductive planning and pregnancy outcomes for high-risk women. Additional interest are in understanding the effects of contraceptive methods on disease-specific symptoms in women

with chronic health conditions and expansion of contraceptive services to vulnerable populations. She also assists in studies on contraceptive method development for NIH trials and industry efforts.

BOARD CERTIFICATION AND ACADEMIC INFORMATION

Academic Departments Obstetrics/Gynecology - Assistant Professor (Clinical)

Academic Divisions Family Planning

RESEARCH INTERESTS

- Contraception and Family Planning
- Chronic Disease
- Pregnancy Intendedness
- Pregnancy Loss

EDUCATION HISTORY

Certification University of Utah
Biomedical Informatics
Postgraduate Certificate

Fellowship Northwestern University Feinberg School of Medicine
Family Planning and Contraception
Fellow

Graduate Training Northwestern University
Public Health
M.P.H.

Residency Northwestern University Feinberg School of Medicine
Obstetrics and Gynecology
Resident

Professional Medical	Northwestern University Feinberg School of Medicine Medicine M.D.
Undergraduate	Wayne State University Biology B.S.
Undergraduate	St. Clair County Community College Biological Sciences and Nursing A.S., A.D.N.
