I definitely plan to continue care with Dr. Markese (sp?). She answered my questions, didn't seem rushed, and is personable.

This was my first time seeing Dr. Markese and she was great with listening to everything I had to say/ask and answering all my questions. I felt very comfortable with her and would love to see her again.

Dr. Markese has been absolutely wonderful and she is always make herself available to answer all of my questions and concerns within 1 day or next day. When her schedules are fully booked, she would squeeze me in when she can.

One of the most pleasant dr. visits I've experienced. Dr. Markese was thorough and listened very well to all of my concerns. She was great at explaining things to me and walking me through steps to get the answers to my questions.

OB is great, but office staff seem annoyed.

She was very nice and listened well but unfortunately hadn't looked at my records at all before our first meeting so I had to explain a difficult situation that she should have known about going in.
