Obstetrics & Gynecology

Aliye Runyan

Graduate Education:

- MS in Cell & Molecular Biology, Tulane University
- MD, University of Miami School of Medicine

Career Interests:

- Family Planning Fellowship
- Academic Practice
- International Health and Domestic/Global Health Policy

Research Interests:

- Family Planning
- Public Health
- Medical Education

Biography:

Aliye is originally from St. Petersburg, Florida. Prior to residency, she spent two years in the Washington, DC area as an Education and Research Fellow for the American Medical Student Association. Her role involved creating educational models to address gaps in traditional medical education, including health policy and advocacy, wellness in medical training, and quality improvement initiatives. From 2010-2011, she was a Howard Hughes Medical Institute–NIH research fellow, studying the role of osmotic transport pathways in uterine fibroid growth. Aliye's career interests include family planning, international public health, reproductive rights, medical humanities and wellness, and medical education. Aliye enjoys yoga, meditation, reading, and traveling.
