RECRUITING

Division of Family Planning

The University of Utah family planning clinicians are specialists in the field of family planning. We provide a full range of contraceptive and abortion services. In addition to clinical care, faculty and fellows within the family planning program are leaders in research to improve family planning care.

Mission Statement

The Utah Family Planning Group is an interdisciplinary collaboration of passionate health care providers, researchers, educators, and administrators committed to elevating the health and wellbeing of our community through essential sexual and reproductive health care, education, and advocacy.
