## Specialty: Obstetrician and Gynecologist

An obstetrician (OB) is a physician specializing in pregnancy, childbirth, and the care that follows. A gynecologist (GYN) specializes in the health, diagnosis, and treatment of the female reproductive system. Training for these specialties often overlap, and many doctors are experts in both (OB/GYN). OB/GYNs manage all aspects of women's health involving the reproductive system through medical and surgical means.

- Accepts Medicare\*

[What Are Payments Received?](#)

### Total Payments Received from Medical Companies Between 2014 and 2018:

[Payments Overview](#)

[Breakdown by Category](#)

[Breakdown by Company Payments](#)

Many obstetrician and gynecologists have received payments from medical companies ranging from small amounts in the form of food at conferences to large payments for consulting or royalties. Some have received payments for specific drugs. These payments are not necessarily cause for concern, but we encourage you to speak with Dr. Zigler if they do raise any questions or issues.

### Total Payments

This graph represents payments Dr. Zigler received relative to the median payment received by similar doctors.

Dr. Zigler received less money than a majority (94%) of obstetrician and gynecologists nationally. This overall payment amount is low, and is not necessarily a cause for concern. For more information, see the [breakdown of payments by category](#).
