LETTER FROM THE CHAIR

Dear Colleague,

I am honored to accept the Ob-GynPAC Chair, and I am grateful for the incredible work that has been done by my predecessors in building our Political Action Committee to what it is today, especially my friend and colleague John C. Jennings, MD, whose leadership brought us to new heights in 2016. Even more importantly, to every single person who contributed to Ob-GynPAC this year, thank you for your generosity and dedication. No matter the size, the frequency, or the reason for your support, you enable us to stand strong as the leading voice of women's healthcare.

The 2015–2016 Election Cycle was groundbreaking for Ob-GynPAC in many ways. Our 2015 Congressional Leadership Conference shattered our previous record of funds raised in one weekend, only to be improved upon again with a new record in 2016!

Not only did this cycle bring out the largest number of contributions in our PAC history – 11,114 – but we also bested our previous record of Junior Fellow involvement, with 1,349 JF contributions. I am so proud that our specialty has such engaged and committed young members, and I know that our future is bright in their hands.

In addition to our increased participation, Ob-GynPAC significantly expanded our political reach over the past two years, contributing to an all-time high of 32 candidates running for state office. This growth is particularly important as we see more and more state legislatures taking up issues pertaining to women's health.

Your support enabled us to support 154 candidates running for federal office. Our involvement at every level ensures that legislators hear from us, the experts, about what we need to be able to do our jobs and care for our patients. We couldn't do this without you.

As you read this annual report, I hope you'll enjoy discovering new ways Ob-GynPAC is working for you, or finding new ways to get involved in the coming year. On behalf of the entire Ob-GynPAC Governing Committee, thank you to all of our 2016 supporters. I look forward to working with you in the coming year, as we continue to strengthen our voice and make our message heard.

Sincerely,

Mark S. DeFrancesco, MD, MBA, FACOG

LETTER FROM THE EVP/CEO

Dear Colleague,

People become ob-gyns for many different reasons, but I believe there are some common threads in all of us: we like hard work, we want to give back to our communities, and we never take the easy way out.

Finding common ground has perhaps never been more important than it is right now. Over the past year, we've witnessed the most divisive political climate in our nation's recent history. In this era of the constant news ticker and the 140-character response, it's easy to lose the nuance of good policy amidst the chaos of partisan shouting.

But Ob-GynPAC, like our members, does not take the easy way out. We have always been proud to support people, not parties. We evaluate each candidate's stance on a broad range of issues important to our specialty and compare them to their opponents, and in such controversial political times, this careful, issue-driven approach is more critical than ever. The issues we work on, like our members, are nuanced, varied, and complex. As the only federal Political Action Committee representing our specialty, we are proud to be the voice of science, of medicine, of our practices and our of patients.

This strategy doesn't just sound good – it works. In the past year, we've gone to the mat for women suffering from postpartum depression and women struggling with opioid addiction. We've defended access to care for our military veterans and for adolescents in low-income families. We've fought against political interference and unreasonably burdensome regulations. And, on these issues and others, we've been victorious.

Ob-GynPAC's dedication to science and evidence-based medicine has enabled us to build trusted partnerships in Washington and in statehouses around the country based on substantive issues, and this work has earned us respect on both sides of the aisle. Our credibility enables us to fill a role in protecting women's health that no other organization can, and we have you to thank for that. Your generous support of our PAC has enabled us to keep this coveted seat at so many tables, and every victory we have is a testament to your dedication and commitment to our specialty.

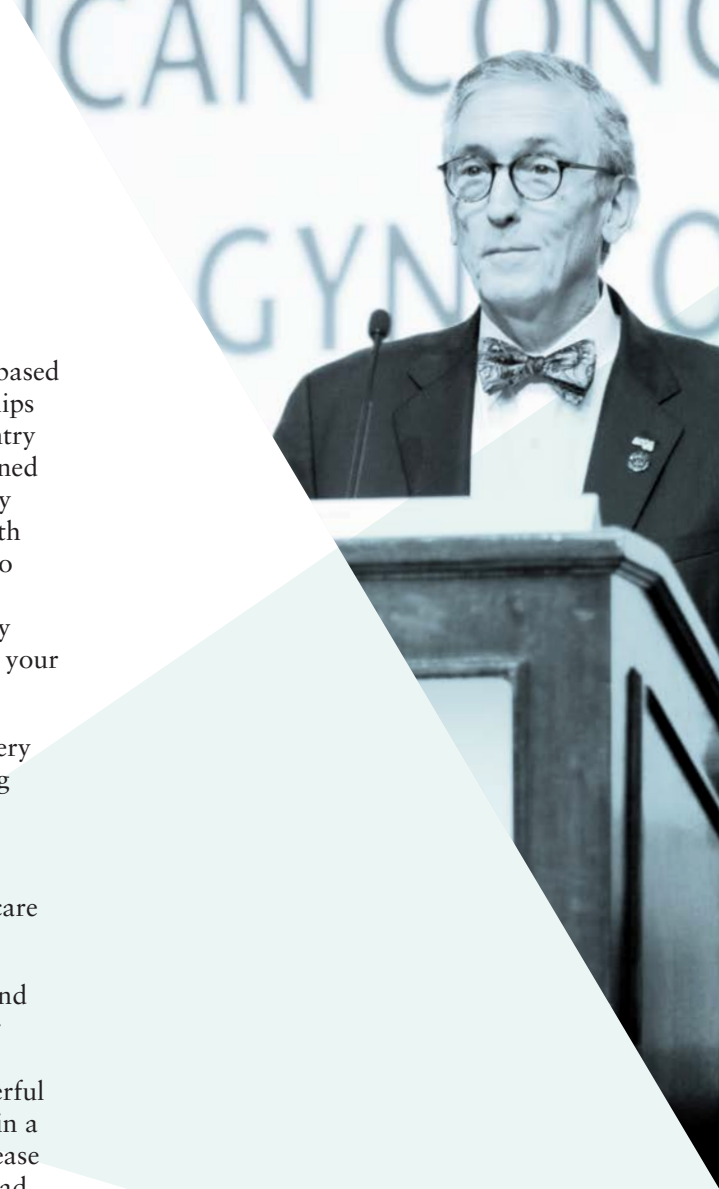

Still, there's so much more work to be done. At every level of government, we're seeing politicians basing policy decisions on imaginary medical experience. Many elected officials seem not to trust women or physicians, leading to policies that often limit our ability to do what we love, and what we do best: care for our patients.

I'm proud to work with so many compassionate and intelligent individuals, and I know we are stronger together. Thank you for your commitment to our specialty, and for enabling ob-gyns to have a powerful voice in so many critical conversations. As we begin a new year and a new election cycle, I ask you to please continue to build on our great work and help spread the word about the importance of Ob-GynPAC. Now more than ever, our voice must be heard.

Sincerely,

Hal C. Lawrence III, MD

Executive Vice President and Chief Executive Officer,
ACOG

THE WHO AND HOW: OB-GYNPAC

Ob-GynPAC is ACOG's Political Action Committee.

Ob-GynPAC is the only federal political action committee representing our specialty, working to elect individuals to the US Congress and Statehouses and helping ACOG members develop important relationships with your elected officials.

Ob-GynPAC helps elect candidates who support our specialty through direct campaign contributions, independent expenditures, and support for leadership PACs. Ob-GynPAC supports candidates who champion meaningful medical liability reform, understand the importance of funding ob-gyn residency training programs, and advocate for women's health, among other key priority issues that matter to our specialty.

Ob-GynPAC represents your professional interests. Through Ob-GynPAC, your practice, patients, and specialty are represented with one unified voice on Capitol Hill, in the State Capitols, and throughout the Nation.

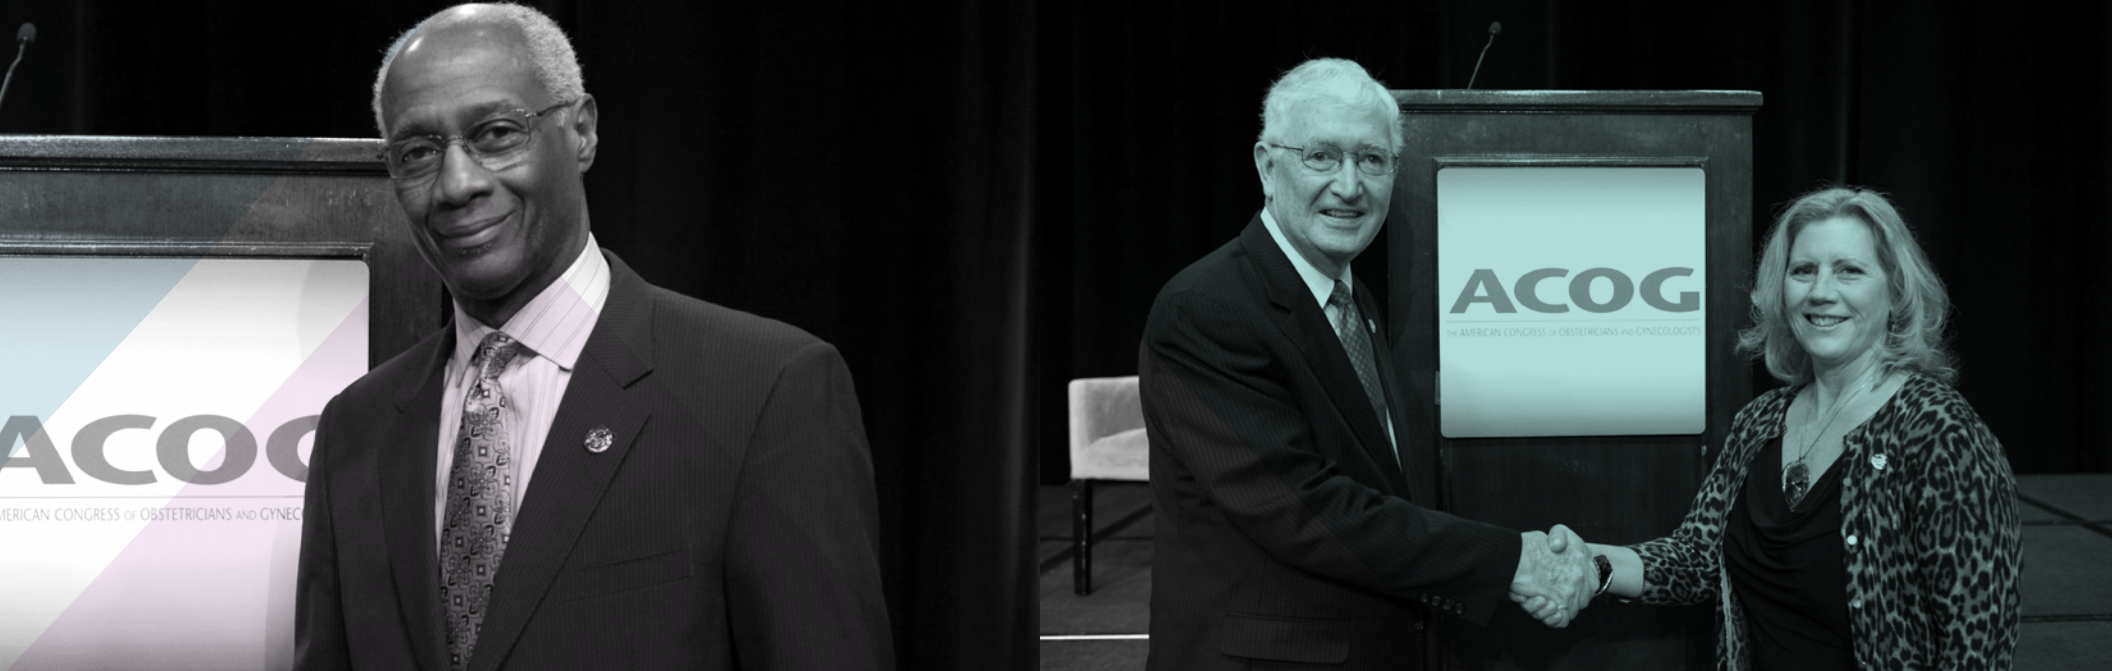

Who Can Contribute to Ob-GynPAC?

All ACOG Fellows, Life Fellows, and Junior Fellows, spouses, and staff may contribute to Ob-GynPAC. Contributions must be from personal funds; by law, Ob-GynPAC cannot accept political contributions from businesses or foreign nationals. Individuals are welcome to contribute up to \$5,000 per calendar year.

Anyone is welcome to support Ob-GynPAC's administrative functions through personal or business fund donations of any size.

Who Delivers Ob-GynPAC Contributions?

You do. ACOG members who support Ob-GynPAC – including ACOG Executive Board Members, Ob-GynPAC Governing Committee Members, and District and Section leaders – meet with Congressional and State candidates in local areas and personally present our campaign contributions to the candidates whenever possible. Individual contributions – big and small – to Ob-GynPAC add up to significant contributions to a candidate's campaign.

Who decides which candidates Ob-GynPAC will support?

The Ob-GynPAC Governing Committee determines our PAC's strategy at its Annual Business Meeting. ACOG's President, members of ACOG's Executive Board, District and Section leaders, and Junior Fellow leaders serve on our Governing Committee.

ACOG's Executive Board determines ACOG's legislative priorities. The Ob-GynPAC Governing Committee then determines how to use Ob-GynPAC to accomplish our legislative goals and which candidates will be supported, using clear objective guidelines developed and approved by the Ob-GynPAC Governing Committee.

Contribution categories include incumbents who sit on relevant U.S. House and Senate Committees, have solid voting records on ACOG's priority issues, and have influential leadership positions in the House and Senate; and non-incumbents who are supported by local ob-gyn leaders, support ACOG's priority issues, and may be challenging incumbents who oppose our legislative goals.

Educating and Electing Our Own.

Ob-GynPAC is your voice in Congress. We are committed to electing ob-gyns and other physicians to the US Congress and statehouses. In the 2016 election cycle, we supported 24 physicians running for federal and state office, including 4 ob-gyns, some with no previous political experience.

Ob-GynPAC offers political education and training to all ACOG members. In 2016, Ob-GynPAC joined with several other medical specialty societies to hold our Seventh Annual Candidate Workshop, a one day intensive training designed to help ob-gyns and other physicians run for – and win – elected office. Attendees learn from experts on fundraising, media, voter turnout, campaign organization, and much more. To attend the 2017 Candidate Workshop on April 29-30 in Washington, D.C., email mschilling@acog.org.

In addition to our annual report, Ob-GynPAC updates and informs ACOG members through ACOG News, at ACOG's Annual Meetings, and our website, www.obgynpac.org.

ACOG'S 2016 STATE ADVOCACY ACHIEVEMENTS

State Online Resource Achievements

State Legislative Action Center:

- On January 1, 2017, ACOG launched its State Legislative Action Center.
- Each state has its own action page, where Fellows can learn more about their legislature and elected officials, search active bills related to women's health, and take action.

State Legislative and Regulatory Achievements

Midwives:

- Maine Section successfully overrode the Governor's veto to put in place a new CPM licensure law, the result of a year-long, multi-stakeholder collaboration. Maine is the first state to require the US MERA bridge certificate for CPM licensure, effective 2020.

Maternal Mortality:

- Four Sections (HI, SC, TN, WA) won legislation establishing multidisciplinary maternal mortality review committees; Michigan passed mandatory maternal death reporting to help strengthen their long-standing surveillance.

Long-Acting Reversible Contraception:

- 10 states improved Medicaid reimbursement for immediate postpartum LARC, bringing the total to 25 states plus D.C. (as of January 2017).
- Pennsylvania and Delaware received national attention for LARC access initiatives.

Substance Abuse:

- Tennessee Section helped defeat legislation that would have continued the state's punitive 2014 law allowing criminal prosecution of pregnant women suspected of using illicit drugs; it is no longer in effect.

Contraceptive Access:

- Maryland and Vermont Sections helped pass legislation expanding insurance coverage of contraception, including tighter restrictions on co-pays and insurance coverage for over-the-counter contraception. They also require coverage for six to 12 months of contraception at a time, respectively and facilitate better access to long-acting reversible contraception.
- Illinois Section helped pass a law that guarantees coverage without cost sharing for all FDA approved contraceptive drugs, devices, and supplies and extends insurance coverage to 12 months of contraceptives at a time.

Political interference continues to be a challenge; but with intensive lobbying efforts, ACOG Sections achieved key victories:

- New Hampshire Section testified against – and defeated – five bills threatening the patient-physician relationship.
- Illinois amended the state's broad refusal law to put protections in place to ensure patients receive timely health care and information in cases where health care providers refuse based on conscience.

State Leadership Achievements

- ACOG Fellows win leadership positions in medical societies and state government
- Medical Society Presidents: Michigan – Dr. Cheryl Gibson-Fountain; Nebraska – Dr. Todd Pankratz; California - Dr. Ruth Haskins.
- Medical Society Officers & Government Affairs Council: West Virginia – Dr. Coy Flowers (Vice President); California – Dr. Kelly McCue (Gov't Affairs Co-Chair); Washington State – Dr. Sarah Prager (Gov't Affairs member).

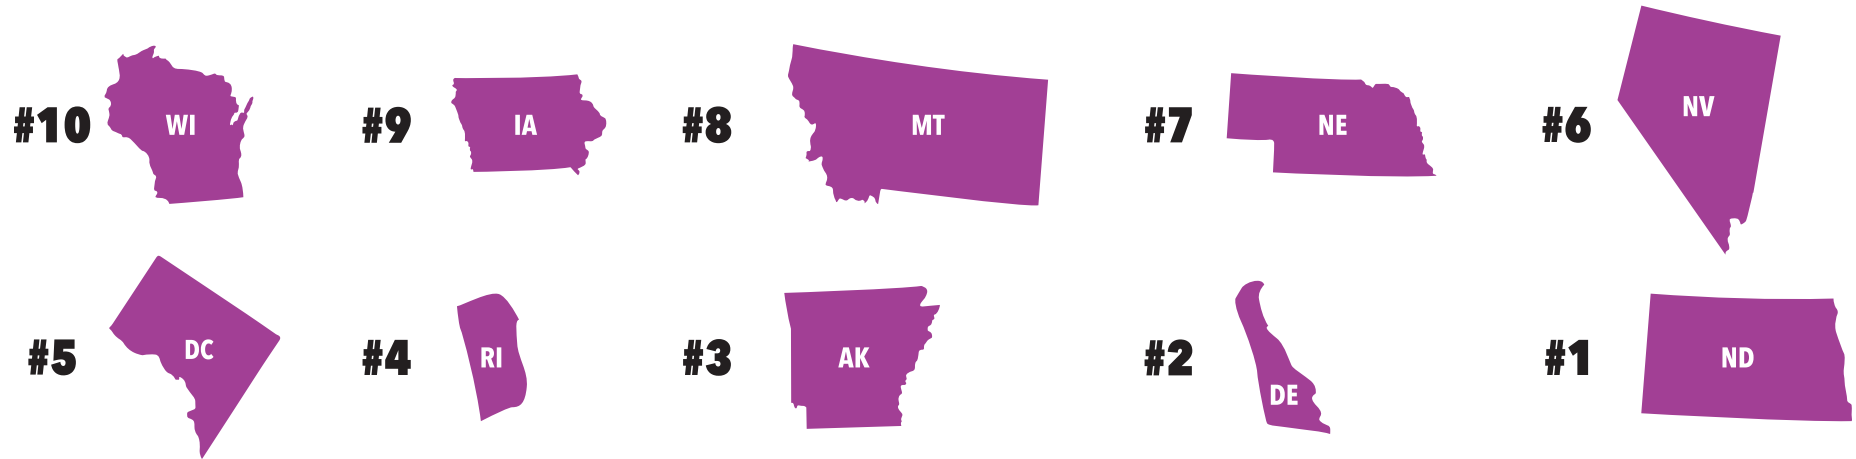

Executive Branch Appointments:

- Louisiana Department of Health and Hospitals Secretary – Dr. Rebekah Gee
- Virginia Board of Health – Dr. Holly Puritz
