“An abortion provider is in no way comparable to a hospital satellite site. There is absolutely no correlation between pregnancy termination – which destroys preborn life – and a hospital clinic that promotes healing and wellness. To draw such a comparison is ludicrous.”

“This is, of course, round one of the appeal, but I have no doubt that our case regarding this variance is correct. The wording of the variance is extremely clear, as are the 1998 Zoning Board minutes — it only applies to an out-patient clinic under management of the Board of Huntsville Hospital. A new facility requires a new variance. It’s that simple.”
