About

Professional Health provider with various, complete experience dealing with women's health issues. This experience is strongly supported with a graduate level education.
My goal is to continue providing the care and education to patients within my new home area of Charlotte, North Carolina.

As you review my background and experience, please do not hesitate to contact me for further information at brenda_joy@yahoo.com to discuss further how can best serve the people of this community.

Following are just a sampling of the skills learned through my career.

- Provide comprehensive education to patients including: contraception, reproductive health, and pregnancy options
- Perform routine reproductive health physical examination on males and females
- Record, review, and interpret patient medical and social histories and symptoms
- Perform specialized STI or other medical screening procedures
- Perform and interpret laboratory test results and order additional procedures as necessary
- Evaluate, plan and implement patient treatment plans Performs abortion follow-up exams, and evaluation of treatment as necessary
- Examine patients for IUD fitting and insertions and other PMSM approved contraceptive devices
- Observe requirements in charting through EMR and complete chart audits on routine basis
- Furnish and prescribe medications and contraceptive devices as allowed by license Consult on regular basis with Director of Clinical Services.
- Refer patients beyond the scope of practice level of competencies and according to medical protocol.
- Respond to emergency situations in clinic Active participation in the referral/follow-up process.
