Please provide specifics in reference to the adverse event including the allegations and your role in the event:

The patient was seen in 2004 with a large ovarian cyst, she underwent laparoscopy with a laparoscopic ovarian cystectomy and made a satisfactory recovery. She had follow up ultrasounds which showed the ovary was present, but when she developed a cyst on the other ovary, she underwent laparoscopy by a different physician. He did not see the ovary that I operated on, and told her it wasn't there. A suit was filed, and in discovery it was noted that the lawyer did not have an expert witness. After much time the lawyer still could not produce an expert witness and the case was dismissed with the above outcome. The lawyer appealed to the Court of Appeals and the Kentucky Supreme Court who affirmed the opinion of the lower courts.
