Board Actions
 NONE

Please note that the settlement of a medical malpractice action may occur for a variety of reasons that do not necessarily reflect negatively on the professional competence or conduct of the provider. Therefore, there may be no disciplinary action appearing for a licensee even though there is a closed malpractice claim on file. A payment in the settlement of medical malpractice does not create a presumption that medical malpractice occurred. Sometimes insurance companies settle a case without the knowledge and/or agreement of the physician. This database represents information from insurers to date. Please note: All insurers may not have submitted claim information to the Board.
