

CHOICES : A Sourcebook of Reproductive Health Care in Maryland

Accessing Services: Abortion & Emergency Contraception Providers

While abortion is legal in the United States, it is not easily available to everyone. There are parts of Maryland that do not have an identifiable abortion provider and many people must travel in order to obtain this medical care. If you feel comfortable doing so, you should always check first with your doctor (Ob/Gyns are the types of doctors who are most likely to provide abortion services) to see if they offer abortion services to patients. Many do, but just do not publicize the service.

Below is a list of clinics that provide abortion care in Maryland. The providers are organized by county. Click on the name of an individual clinic to read more information on the type of services provided. The information provided is intended to be a general resource and is subject to change at any time. In addition, some services may only be available to existing patients. Please contact the provider directly for the most up to date information and with any questions you may have.

* Denotes members of the National Abortion Federation. This means that these clinics adhere to clinical guidelines to ensure a high standard of care.

Members of NARAL Pro-Choice Maryland are in **bold**.

All of the Maryland clinics are licensed by the [Maryland Department of Health and Mental Hygiene Office of Health Care Quality](#) as surgical abortion centers (excludes Washington DC and medical abortion only clinics).
