- 2003 Resident Teacher Award, University of Michigan Department of Family Medicine
- 2002 Mead Johnson Scholar/Bristol-Myers Squibb Award, American Academy of Family Physicians
- 2000 Samuel F. D'Ambola, M.D. Award, UMDNJ-New Jersey Medical School

Comments:

In 2007, Dr. Wu joined the Department of Family Medicine as a Clinical Assistant Professor. As a recent graduate of the Women's Health Fellowship at RWJMS under the mentorship of Dr Jeffrey Levine, Dr. Wu continues to be active in women's health clinical care, research, education and advocacy. Her specific research interests are family planning, first trimester elective termination/miscarriage education and training, and the use of mixed methods (quantitative and qualitative research) to inform reproductive health research. She is currently the director of the UMDNJ-RWJMS RHEDI Program (Reproductive Health and Education in family Medicine), which aims to provide comprehensive, woman-centered reproductive health training to family medicine residents.
