[Planned Parenthood of Maryland, Inc.](#) campaign leader

Winter landscapes, crisp air, crackling fires... it's that time of year again to renew your support for the causes you care most about.

When the outside world turns cold, Planned Parenthood does even more to welcome our patients into the warmth of our health centers. Please help us show our patients how welcome they are here.

In honor of the season, every person who donates this fall and winter gets their name on a printed snowflake that will cover our street-front windows at our health centers across Maryland. Our goal is to make the symbol of each unique snowflake represent the support you provide, outnumber our picketers, and show how much we all care about the 50,000 young women and families we serve.

Here's How it Works:

- You make a donation here to support PPM's Cause
- We add your name to a snowflake in the windows at our health centers;
- If you want to stand with us in other ways, post a picture of yourself on our Facebook page or come by one of our health centers and we will take your picture with your snowflake;
- Then, visit our [website](http://www.plannedparenthood.org/maryland/); follow us on [Facebook](https://www.facebook.com/plannedparenthoodofmaryland); or [Twitter @PPMaryland](https://twitter.com/ppmaryland) for updates as we grow support at Planned Parenthood health centers across Maryland.

Donate now and 100% of your gift stays in Maryland to help us provide life-saving breast and cervical cancer screening, birth control, STD tests and treatment, annual exams, and education and training for all who need it, regardless of insurance or their ability to pay.

It's winter – we hope you will renew your support for Planned Parenthood again this year!

Happy Holidays,

Jenny Black Dr. Raegan McDonald-Mosley
