## Gyn Services

All of our physicians are board-certified obstetrician/gynecologists. Our medical personnel are licensed with extensive backgrounds in reproductive health services.

All locations offer GYN services in a setting that supports women in taking an active role in their well being. If you have a specific question about services, fees, hours of operation contact the center closest to you.

### Gyn Services in Atlanta, Georgia

#### Comprehensive Routine Gynecological Care

Including pelvic and breast examinations, physical examinations, PAP Smears, screening of sexually transmitted diseases (STDs) and diagnosis and treatment of vaginal infections.

#### Other Gyn Services

- Regular Contraception, including birth control pill prescriptions, Depo-Provera™, Nuva Ring and birth control counseling.
- **Emergency Contraception** (“Morning After Pill” or “Morning After Treatment”) used within 72 hours of unprotected sex.
- Pregnancy Testing including early detection tests. Results are given the same day.
- Options Counseling, including referral for adoption services and prenatal care.
- HIV Counseling and Testing

### Gyn Services in Detroit, Michigan

#### Pregnancy Testing

Pregnancy tests are offered to any women late for a menstrual period on a walk-in basis. Counseling to discuss the test results and options to unplanned pregnancy (abortion, parenthood and adoption) is available at no charge. Three tests are available: UCG, EPT and blood test. UCG is available at no charge. EPT and blood tests are available for a small fee.

#### Pre-Natal Care Services

Summit Women’s Center now offers prenatal care services in cooperation with Sinai Grace and Hutzel Hospital of Detroit. Since 1973, Summit Women’s Center has been providing women with the best possible, affordable reproductive health care. Now, they’ve teamed up with the best: the obstetrics team of doctors at Sinai Grace and Hutzel Hospital. Summit Women’s Center patients will receive all their prenatal care at our clinic on McNichols, and deliver at Sinai Grace and Hutzel Hospital.

Also, Summit can now sign patients up for the MOMS program on site. Call for more information and appointments. We want to help you deliver a healthy baby!

#### Annual PAP Smear Test and Pelvic Exam

Free PAP Smear test and breast exam for women age 40-64 (financial eligibility required). Every woman past age 18 or who is sexually active should have an annual PAP Smear test and pelvic exam. \$60 for an initial exam, diagnosis for infections and these lab tests: urinalysis, pregnancy, PAP Smear and gonorrhea. Doctor’s offices charge as much as \$115 for these same services. They can be impersonal and often rush you through the visit in minutes. Summit Women’s Center’s female nurse practitioner and our medical staff

#### PATIENT COMMENTS

"Best doctor in Detroit. This was a tough decision, but your staff made me feel safe and confident with my decision. Thanks so much!"

"I am very pleased with your staff. Everyone made it as comfortable as possible. Thanks for everything!"

you feel comfortable, answer any questions you have and prescribe birth control methods that work for you. Schedule an appointment today.

### **Chlamydia Screening**

Did you know that the most prevalent STD is chlamydia? This disease usually has no symptoms and, if left untreated, may lead to the inability to have children. For more information, ask one of our health educators. A lab fee will be charged.

### **Syphilis Elimination Program**

#### **(Affiliation with the local health department)**

#### **Community Education**

Summit Women's Center together with private physicians, city and county health departments, area high schools, rehabilitation agencies, community service organizations, mental health providers, crisis centers, community hospitals, colleges and universities, teen health and guidance programs, nursing school programs, women resource groups, community religious organizations, family planning agencies and Federal community service groups has provided quality medical care for women for over two decades.

In its strong commitment to reproductive health care education, Summit Women's Center will send a speaker to schools and community agencies to speak about abortion, birth control, sex education and reproductive health issues.

- DNA Testing
- Ultrasound for pregnancy sizing.
- Community Speakers whom are available to speak to groups on women's healthcare issues.
