About Church Arise! LivingWater Ministries

CHURCH ARISE!

The Church Arise! LivingWater Ministries (CALM), Ile-Ife, Nigeria is a non-denominational non-profit organization whose vision is to arouse the Body of Christ to the challenges and opportunities of these end times. We seek to warn about the wiles of the devil (on a wild rampage knowing that he has but a short time Rev 12:12); and simultaneously encourage the Children of God to maintain a Kingdom perspective viz-a-viz daily occurring issues, which appearing mundane on the surface, could actually turn out to be of eternal consequences. We dare not fritter away the great privilege of being on planet Earth at a time like these (see Matthew 13:17). The vision for the ministry was received at the 1997 God's End-Time Army Conference; and operations commenced January 1, 1998 with the launching of Vol 1 No 1 of the bi-monthly newsletter, Church Arise!. The ministry was formally launched on April 6 2001 by a team led by Bishop Francis Wale Oke (SOTSM), Pastor Adewole Haastrup (RCCG) and HRH, Pastor Julius Fatanmi (RCCG). Dr Joshua Ojo is the President. Please visit our website www.churcharise.org for useful downloads.

Its now Official: WARREN BUFFET IS GLOBAL ABORTION CHIEF Donates \$3 BILLION for mainstreaming abortion practice in regular medicine

Usually, you only get to read about Warren Buffett's simple lifestyle and love for philanthropy. But now, for might as well become obvious very soon, Mr Buffett has apparently decided it's time people knew that he sponsor of abortion globally.

A pro-abortion article, published in the July 12, 2010 edition of the New York Times (NYT) was the medium this revelation. The article thus further clarified the unusual bonding between the world's two richest men, Bill Gates: that being the desire to promote "abortion on demand" for all, world-wide. (see CA vol 13 No 2 Gates efforts along that line).

On June 26, 2006, Buffett donated an unprecedented \$31 billion to the Gates Foundation – the world's largest funding for advocacy on abortion and homosexuality. Part of the deal was that Bill Gates himself would resign his Microsoft job and devote his full attention to managing the Foundation. Warren Buffet himself also joined Melinda on the Board of the Gates Foundation. (<http://www.gatesfoundation.org/about/Pages/ImplementingGift.aspx>)

Now, the NYT article (which couldn't have been published without Buffett's consent) is revealing that apart from the thirty-one billion US dollars worth of donation, Mr Buffet gave a separate three billion dollars (that's about 10% of a Foundation of his late wife to advocate solely for abortion, to mainstream it in regular practice of medical research on the chilling subject.

The nine-page article written by Emily Bazelon in the New York Times describes on-going concerted efforts to mainstream abortion. The idea is quite simple and powerful: Require abortion to be incorporated into the standard curriculum of medical schools, and provide academic fellowship to encourage brilliant scholars to train as residents and consult in specialization in Family Planning. With these, the stigma on abortion-doctors (who now operate mostly in private clinics, rather than regular hospitals) will be removed. All the "pro-life" campaigns at abortion clinics will fail automatically.

However, given the emotional trauma involved in cutting a miniature fellow human being into pieces, part of the deal was to advance ultra sound facilities give vivid images of the baby in the womb, coupled with the serious disposal of the body parts afterwards, it's not so simple a matter mainstreaming the idea that abortion is okay. The reason is just because of some inconvenience.

But then again, three billion dollars can really get a lot of things done!

One of the principal efforts in this regard, according to the New York Times, is the Kenneth J. Ryan Residency Program. Established in 1999 by Uta Landy, a former director of the National Abortion Federation, and her husband who is an OB-GYN professor at the University of California at San Francisco (U.C.S.F.), the program provides two or three years of seed money for abortion training for OB-GYN residents. Through it, 58 Canadian doctors have received financing. Uta Landy also directs the Family Planning Fellowship, with Jody Stein as director. Ms Steinauer is an OB-GYN professor also at the U.C.S.F.- obviously the hub of the abortion-ignoring in medicine.

According to NYT reporter Emily Bazelon, her attempt, in January, to set up an interview with Uta Landy failed. Landy maintains a policy of not talking to the Press. However, Steinauer probably could, and she explains that publicity might scare away a university considering a Ryan or fellowship grant. "Or it might spook the donors," other doctors reportedly told Bazelon. She further elaborates: "The money for the Ryan and the Family comes from one foundation and from one family. The donor has chosen to remain anonymous, which helps explain why there's been so little publicity about the pro-choice strategy of bringing abortion into academic medicine. It's done by a veil of semisecrecy." However, now that the programmes have grown beyond the threat of suffering from a sponsor can at last be revealed. Yes, it's Warren Buffett.

Though Warren Buffett has never spoken publicly about his views on abortion, his deep involvement in the sponsorship of academic fellowships for the gruesome affair. For instance, earlier in the 1990s, according to the Journal, the Buffett Foundation helped finance the research and development of the pills that induce abortion. He also helped finance a lawsuit to overturn the ban on so-called partial-birth abortion in Nebraska, Buffett's headquarters of his company, Berkshire Hathaway.

In 2006, Buffett announced his \$3 billion (half a trillion naira!) gift to the Susan Buffett Foundation, named after his wife who had died two years earlier. NYT reports that the award letter did not mention abortion directly, but used the "kind of code". Reportedly, Buffett explained that he and his wife had established the Foundation "to focus on important societal problems that had very limited funding constituencies." According to the NYT, "the tax implications of that most of the Foundation's spending goes to abortion and contraception advocacy and research."

Benzalton felt there was no need for the Abortion Advocates to be jittery. According to her: "And yet for all being in the spotlight, the surprising truth is that however embattled abortion remains in America at large, academic medicine, the structure built to support it looks secure."

How secure? According to David Grimes, a pro-abortion researcher who is also on the committee that ch Planning Fellow at the University of North Carolina School of Medicine, Chapel Hill, there were so many candidates now applying for the fellowship that some had to be turned down in the current year. He further meetings with presentations of top-flight research, the schools where Medical Students for Choice and re the Family Planning Fellowship are flourishing, and concludes with satisfaction, "**A few things have hap around. Thanks to the donor, I think it's all here to stay.**"

That donor is Warren Buffett.

According to Jody Steinauer, "The '90s were about getting abortion back into residency training and medi about getting abortion into our practices.." Perhaps that explains the article – first the god-father steps in challenges the disciples to follow suit?

The article betrayed its pro-abortion bias when it casually but severely criticized (US) federally sponsorec centres by alleging they give "wrong information like tying abortion to breast cancer or infertility or mental Yet these are well-established links, which are being reinforced with new evidences from time to time. It's dollars made available by people like Warren Buffet that is keeping these glaring facts from the teeming r world, as they rightly should be. For instance in a study published in the current issue (as at April 2010) c Journal of Psychology by a multidisciplinary research group from the University of Manitoba, it was clear that abortion is associated with mental illnesses such as mood disorders, anxiety disorders, substance at attempts. (Winnipeg Free Press: Saturday, May 1, 2010 ,LifeSiteNews.com. See also CA! Vol 11 No 6).

Similarly, despite much politicking by pro-abortion lobby, the link of abortion with breast cancer has long t government scientists in the UK stating unequivocally in 1986 that "Induced abortion before first term pre risk of breast cancer." (Lancet, 2/22/86, p. 436). Indeed, in a recent article (June 24 2010), UK's Daily Ma latest research finding published on the subject in the Journal Cancer Epidemiology. The research, carrie the University of Colombo in Sri Lanka is the fourth epidemiological study to report such a definite link be breast cancer in the past 14 months. Previous studies giving the same results were carried out in China, (See also The Coalition of abortion_breast cancer, www.abortionbreastcancer.com). There is perhaps no linking abortion with infertility, considering the myriads of ruptured or infected uteruses, not to talk of deat many an abortion procedure. (Read Frank Peretti's novel, The Prophet*, for more insight on these issues going local story in Ibadan here <http://www.tribune.com.ng/sun/index.php/features/1650-how-18-yr-old-gii-six-months-pregnancy>)

As we previously reported, Buffett and Gates are only two members of the super elite group, unofficially r Club" who is fixated on the idea that the most urgent need of the world right now is to reduce the populati to global governance. Others in that Club included included David Rockefeller Jr, the patriarch of Americ George Soros, the financier, Michael Bloomberg, the mayor of New York, and the media moguls Ted Turr Winfrey (see CA! Vol 12 No 4).

Do we blame people like Warren Buffett? What for! The man is only putting his money where his heart is! professing Christians would do same! As Scriptures say, the sons of the world are wiser in their generatic to use to possess what money can not buy – human souls! We can only hope that at the least, Christians selling their own souls and destinies just in their excitement to partake of Mr Buffett's billion-dollar buffet!

Thank God, the battle is already won through the Lord Jesus Christ! Read the book of Revelation (especi 20) to see how these things WILL SURELY END, probably only a short time from now!
