Abortion Clinic Nurse Who Claims She “Serves God” Assaults Pro-Lifer

STATE CAROLE NOVIELLI MAY 30, 2014 | 10:03AM TUSCALOOSA, AL

Share this story:

A video posted on Youtube shows an abortion clinic nurse appearing to attack attack a pro-lifer.

ADVERTISEMENT

The abortion nurse is upset because the pro-lifer accused her of telling patients that their abortion won't hurt....

The pro-lifer who posted the vid identified as Paul Lake explains, “I learned that the # 1 question women ask in abortion clinics when considering abortion is; Does it hurt? Some clinics

have certain people who do certain jobs and answer certain questions women ask. When the nurse at our local abortion clinic arrived to work Tuesday morning I asked her, “Are you the nurse that tells the women that it don't hurt?” She didn't answer. So I said to her that “whoever is telling them that it doesn't hurt is lying to them”. She went into the clinic. 10 minutes later the same nurse walked up to me and this is what happened..”

“I don't need you out here telling me nothing bout I'm a nurse and I'm telling these people it don't hurt. I don't tell them that, so I'm not a liar...and I'm not a liar and your not going to stand there and tell me that I'm a liar...because I'm not a liar. I serve a God that

sees everything and know everything and if you was any kind of big Christian you wouldn't be sit'n your tail out here doing what your doing.”

At that point the pro-lifer says, ” I want to help you.”

And the abortion nurse replies, “You aren't helping me and you're right there your wearing that cross – you don't need to be wearing it...”

The pro-lifers says, ” I'll get you another job...”

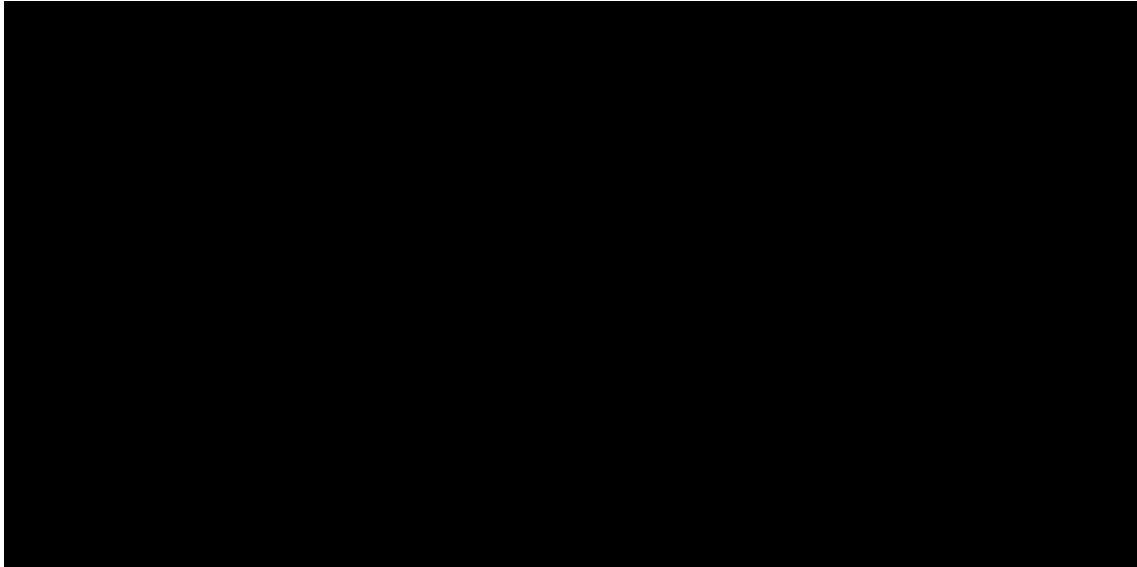

As the conversation continues a second abortion worker joins in threatening the pro-lifer, “You need to watch what you're doing because we know every single thing that you do. If you wipe your f***ing a** we know. So, you need to quit stalking me – you need to quit stalking Dr. Payne...we know everything about you just like you're trying to find out about me that you'll never know.“

She then asks the pro-lifer, “Can you tell me where I go to church,

that’s what I want to know?”

They then get into a debate on whether abortion kills a baby and both nurses who claimed to go to church say abortion is a women’s choice.

The outside of the clinic and looks like [West Alabama Women’s Center](#).

Our Staff

Dr. Payne is a native of Jasper, Alabama, and received his early education in the public school system. Upon graduation, he continued his education at Birmingham Southern College graduating with Phi Beta Kappa Honors. He received his Doctorate of Medicine in 1964 with Alpha Omega Alpha Honors from the University of Alabama School of Medicine. Dr. Payne completed his internship and residency at the University of Alabama School of Medicine in 1968 at University Hospital in Birmingham.

He practiced medicine in Hartselle, Alabama, before relocating to Tuscaloosa in the summer of 1969 and has been a practicing OB-GYN Physician since that time. Dr. Payne was Board Certified by The American Board of Obstetrics and Gynecology in 1972. He offers a full range of gynecological services at West Alabama Women's Center. He maintains staff privileges at Druid City Regional Medical Center and Health South Surgical Center.

Based on review of the center’s policies, observations and interview, it was determined the center did not follow their own standards of practice for:

1. Hand Washing
2. Glove usage
3. Cleaning of supplies

4. Safe use of sharps containers

During the tour on 1/10/13 at 10:30 AM in Exam Room # 2 the surveyor noted a sharps container more than 2/3 full with needles on the floor beside the sharps container. The soap dispenser by the sink in Exam Room 2 did not work so the surveyor was unable wash her hands with soap and water.

An interview was conducted with Employee Identifier # 1, Director on 1/10/13 at 10:45 AM who verified the sharps container was more than 2/3 full and the needles were on the floor.

A tour was conducted in Medication Storage Closet on 1/10/13 at 11:00 AM. The surveyor observed the following unlabeled:

1 – 10 cc (cubic centimeter) syringe with liquid and a needle

2- 3 cc syringes with liquid and a needle

3- 1 unit syringes with liquid and a needle

An interview with EI # 1 and EI # 2, Medical Director was conducted on 1/10/13 at 11:05 AM and both stated it was used for Lidocaine. On 1/10/13 at 2:40 PM the surveyor observed EI # 2 perform a procedure in Exam Room # 2. EI #2 was observed giving an injection intravenously in the right antecubital without the use of gloves.

EI # 2 was also observed by the surveyor during the above procedure use non sterile gloves to examine Patient Identifier (PI) # 1 and then change to sterile gloves without hand hygiene.

EI # 3, the nurse assisting with the procedure also changed gloves during the above procedure without hand hygiene.

PI # 1 was transferred to the Recovery Room on 1/10/13 at 2:51 PM. PI # 1 was seated in a recliner and feet propped up. EI # 4, Registered Nurse, then administered Rhogam to PI # 1 right shoulder without the use of gloves.

PI # 1 was discharged on 1/10/13 at 3:21 PM. EI # 4 did not clean the back and feet area of the recliner.

A tour was conducted on 1/11/13 at 9:10 AM, to exam Room # 2. The surveyor was unable to obtain soap from the soap dispenser. EI # 1 tried to obtain soap and was unable.

But this was not the only time.... the [Alabama Department of Health](#) which regulates abortion clinics in the state, shows that the West Alabama Women’s Center abortion clinic has been written up on several occasions:

WEST ALABAMA WOMEN'S CENTER, INC	05/07/2008	HPS Clinical Deficiencies
WEST ALABAMA WOMEN'S CENTER, INC	10/25/2007	HPS Clinical Deficiencies

So to recap

– abortion does hurt and if you point that out as a pro-lifer you could be attacked by a nurse who claims she serves God and slices while working at an abortion clinic with several health deficiencies.....just who is on the side of woman again?
