## Abortion Clinics Injure Four Women in Botched Abortions in One Weekend

🚩 NATIONAL (HTTPS://WWW.LIFENEWS.COM/CATEGORY/NATIONAL/)

CHERYL SULLENGER FEB 11, 2015 | 2:09PM HOUSTON, TX

**February 6, 2015: An ambulance arrived at the Planned Parenthood abortion facility in Houston, Texas, to transport an abortion patient to the Emergency Room, according to the Houston Coalition for Life.**

**Share this story:**

Operation Rescue has documented that four women were transported by ambulance from abortion facilities across the U.S. over the weekend of February 6-7, 2015. Half of the facilities where medical emergencies occurred were Planned Parenthood abortion clinics.

“We have been overwhelmed with reports and photos of incidents in four different states. We are working as fast as we can to investigate them further and get complaints out to the appropriate state agencies,” said Troy Newman, President of Operation Rescue.

The abortion emergencies took place at:

- Planned Parenthood

## Houston Planned Parenthood

In Houston, activists with the Houston Coalition for Life reported that the ambulance turned off lights and sirens when leaving the Planned Parenthood abortion facility on Gulf Coast and only reactivated them after turning the corner onto another street. The ambulance was seen headed in the direction of Ben Taub Hospital, where other women injured by abortions at Planned Parenthood were also sent.

Operation Rescue has documented at least five other medical emergencies at this Houston Planned Parenthood facility, including one involving a confusing 911 call (<https://www.operationrescue.org/archives/houston-planned-parenthood-befuddles->

911-dispatcher-with-attempt-to-obfuscate-abortion-hemorrhage/) placed on behalf of a 33-year old woman suffering massive hemorrhage in March 2015.

Court records

### Riverside Planned Parenthood

Riverside ambulance 02072015.jpgA former member of The Survivors had the presence of mind to snap photos when an ambulance arrived at the Riverside Planned Parenthood abortion clinic in response to a medical emergency at 12:15 pm on February 7, 2015. The witness reports that the suffering woman was brought out of the abortion

clinic on a gurney. A sheet covering her failed to conceal a visible bulge in the woman's abdomen, indicating that she was in the advanced stages of pregnancy. The condition of this woman remains unknown.

### **Little Rock, Arkansas**

The fifth medical emergency documented at Little Rock Family Planning Services since January 2014, took place on February 7, 2015.

Activists with Every20Seconds.org posted video of the incident on Facebook

An ambulance arrives at Little Rock Family Planning Services on February 7, 2015, to transport yet another abortion patient to the hospital.

(<https://www.facebook.com/every20seconds.org>), which showed one of the clinic escorts laughing and dancing as she helped other clinic workers display sheets and blankets to prevent pro-life supporters from photographing the incident.

The abortionist responsible for the carnage at Little Rock's last remaining surgical abortion clinic appears to be Thomas H. Tvedten

(<https://abortiondocs.org/clinic/abortionist/688/>), who once sued to block a ban on the heinous Partial Birth Abortion procedure, which is now outlawed in the U.S.

## Akron, Ohio

As reported by Operation Rescue earlier

An ambulance collects an injured abortion patient from an abortion facility in Akron, Ohio, on February 7, 2015.

(<https://www.operationrescue.org/archives/lights-and-sirens-woman-rushed-to-er-from-akron-abortion-facility/>), an abortion patient was rushed to the hospital after suffering complications to an abortion at the Akron Women's Medical Group on February 7, 2015. That facility has repeatedly failed inspections by the Ohio Department of Health with serious violations including untrained staff and general filth inside the clinic.

Abortionists at the Akron facility include Mohammed Rezaee

(<https://abortiondocs.org/clinic/abortionist/556/>), Raymond E. Robinson

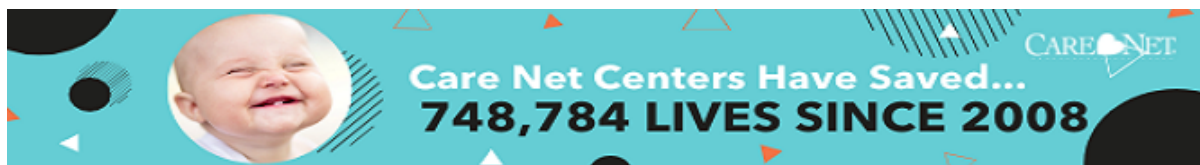

(<https://abortiondocs.org/clinic/abortionist/567/raymond-everett-robinson/>), and Lucy Ann Nunnally (<https://abortiondocs.org/clinic/abortionist/501/l-ann-nunnally/>).

“Even with the increased documentation of abortion abuses due to faithful pro-life activists around the country, we still only see a small percentage of the actual carnage inflicted by the abortion cartel. These incidents prove that abortion isn't safe just because it is legal and that state regulators need to keep a tighter watch on abortion facilities and shut them down when things go wrong,” said Newman. “Of course, we want to see every abortion mill close, but those that are sending women to hospital emergency rooms at the frequency of these abortion clinics, pose a particularly urgent danger to the public.”

Operation Rescue encourages pro-life activists to send photos and other information regarding medical emergencies they observe at abortion facilities to us at [info.operationrescue@gmail.com](mailto:info.operationrescue@gmail.com) (<mailto:%20info.operationrescue@gmail.com>).
