# Unlucky: 13th Abortion Patient Removed From CA Abortion Mill Covered Like Mummy

January 11, 2017 By Operation Rescue 16 Comments

**Thirteenth medical emergency in four years at this notorious California abortion facility.**

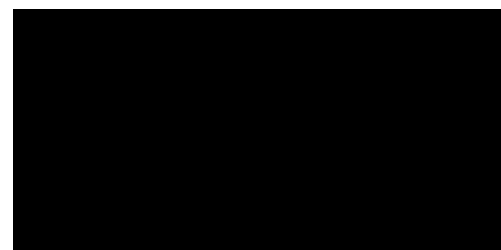

By Cheryl Sullenger

Bakersfield, CA – When the gurney rolled out of the Family Planning Associates abortion facility in Bakersfield, California, on the morning of January 10, 2017, it didn't look good for the patient.

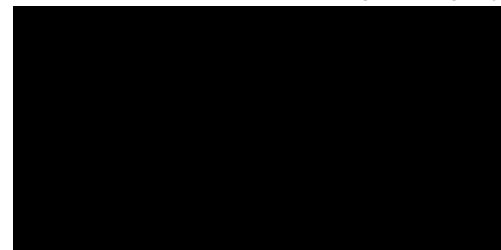

She lay motionless on the gurney — completely covered from head to toe with a white sheet — as emergency responders loaded her into the ambulance. There wasn't even an IV attached to her arm, as is often the case in this kind of emergency.

The ambulance had been greeted at the front door of the abortion business by Donald Clyde Willis, the abortionist on duty at the time of the incident. Facility workers at first came out to deploy sheets to block pro-life activists from filming the incident, but then decided against it and returned inside the facility.

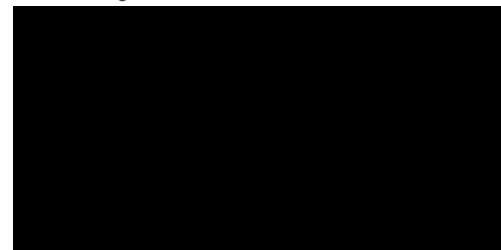

## Operation Rescue Video

Teen hospitalized after botched 33-week abortion attempt; Abortionist didn't call 911 for urgent emergency

Woman heard screaming in agony after perforated uterus during botched abortion.

Planned Parenthood is dishing out abortion drugs to women using an smart phone app & the US Mail. Population Control agenda is behind this new scheme!

**Alive or dead?** It didn't look good for this abortion patient, who was transported from the FPA abortion facility in Bakersfield, CA on January 10, 2017.

Terri Palmquist, a long-time pro-life activist with LifeSavers Ministries posted video to Facebook Live, imploring viewers to let people know what was happening. She sought prayers for the woman on the gurney and her baby.

This was the 13th medial emergency documented at the Bakersfield Family Planning Associates since August 2012.

The abortion business, which operates a chain of 22 abortion centers, has experienced difficulty maintaining an abortion provider at the Bakersfield facility. Willis is the latest in a long list of abortionists, most of which have left after medical emergencies were documented.

“The Bakersfield FPA has such an atrocious safety record that it really should be shut down,” said Troy Newman, President of Operation Rescue. “We plan to file another round of complaints and pray this time, the regulators in California will do their duty and close this dangerous abortion business for good.”

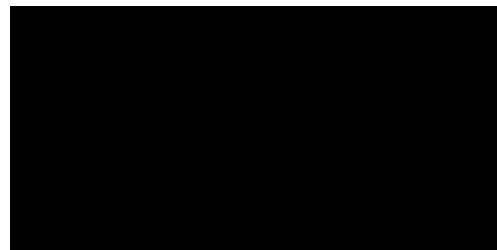

Abortionist Donald Clyde Willis was on duty at the FPA abortion facility in Bakersfield, CA when a patient wrapped like a mummy was transported to the emergency room on January 10, 2017.
