

Fellowship - Family Planning

Fellowship in Family Planning at UCLA

University of California Los Angeles Department of Obstetrics and Gynecology has an enthusiastic and excellent Family Planning Division.

The Division of Family Planning is composed of a core group of 7 faculty members with decades of advanced family planning experience and/or fellowship training. We are committed to providing comprehensive contraceptive and family planning services.

The fellowship was established in 2010 and has been growing ever since with one fellow per year for a total of 2 years. This program offers a wealth of clinical training with family planning as well as the opportunity to obtain an MPH or masters in clinical science.

In addition to the wealth of experience in clinical care, education, and research, the fellow may take advantage of international rotations, policy and advocacy opportunities.
