## Funeral home sends driver to abortion clinic to pick up "fetus"

Abolitionist Toby Harmon has uploaded a video of his conversation with a Funeral Home employee who showed up at [Curtis Boyd's](#) Albuquerque abortion clinic: Southwestern Women's Options.

The Funeral Home employee told Harmon that he did not agree with abortion but was requested by the mother for them to pick up the fetus.

An image of the funeral home vehicle taken by Harmon reveals that the funeral home is [Riverside Funeral Home](#).

On their [website](#), the late term abortion clinic says that prior to the induction they, "discuss the patient's wishes for saying goodbye to her baby and make a plan to accommodate her wishes. We offer a memory box containing a receiving blanket, footprints, a certificate of stillbirth and

photos. Many women and their support choose to view the baby the day following induction. **We can help with arrangements for burial or cremation."**

### Albuquerque, New Mexico

We recognize that patients carrying a baby with fetal abnormalities have specific and special needs and we have services geared especially for you. We work closely with genetics counselors and Maternal - Fetal Medicine specialists to meet requests for fetal testing. We offer individual and group counseling where we discuss the feelings surrounding a late fetal indications termination of a loved pregnancy.

Prior to the induction we discuss the patient's wishes for saying goodbye to her baby and make a plan to accommodate her wishes. We offer a memory box containing a receiving blanket, footprints, a certificate of stillbirth and photos. Many women and their support choose to view the baby the day following induction. We can help with arrangements for burial or cremation.

Third trimester induction procedures are performed beginning at 24-25weeks LMP (5.5cm BPD).The cervix is prepared over several days with laminaria. This is followed by an induction delivery of a stillborn.

Second trimester dilation and evacuation (D&E) procedures are performed beginning at 14-15 weeks LMP (3.0cm BPD). The cervix is prepared over several days with laminaria. This is followed by an aspiration (suction) and evacuation of the uterus by the physician.

## FUNERAL HOME PICKING UP BODY AT ABOR...

A call made to the abortion clinic in 2011 revealed that the clinic will arrange for a funeral home to pick up babies they murder.

The abortion clinic tells the caller how they will kill the "fetus" the caller then asks:

**Caller:** *Okay. What happens to the fetal remains? What options do I have there?*

**SWO's Sue:** *Well, you do have some options,uh, from—you know you can certainly make arrangements through a funeral home, if it's something that you're wanting to have cremated for example and, uh, the remains shipped to you. Uh, it would have to—those arrangements would have to be made through a funeral home here who then makes arrangements with a funeral home where ever it is that you live. Um. So that certainly is something that some patients do choose to do.*

Harmon described his feelings after posting the vid, "I must admit my emotions and thinking on this are conflicted. It is sick and twisted to

**SWO's Sue:** Well, you do have some options, uh, from – you know you can certainly make arrangements through a funeral home, if it's something that you're wanting to have cremated for example and, uh, the remains shipped to you. So that certainly is something that some patients do choose to do.

*murder your own baby and then act like it was a normal death and now decide to call the funeral home to give him or her proper cremation/burial. However, this is the most humanly this pre-born child was ever treated in his short life and reflecting back on it I do not hold the funeral home accountable for his murder, but appreciate that they will, by their services provide him a little dignity.”*
