I have been going to Dr. Draznik for about 17 years. He is the best Dr that I ever had. He listens to you, he has excellent bedside manners. He does his best to figure out your problem. Recently I had to have a hysterectomy; right before I was put under, he held my hand and said comforting words to me. I really appreciate him doing this.

I felt rather judged by Dr. Draznik. His comments and assumptions were off putting. The exam itself was rather rough and more uncomfortable than my previous OBGYN. I would never have left my doctor but he retired.

I have been with Dr Draznik for several years now since moving to Cincinnati and I could not be happier. I've never had an OB that I felt truly listened to my concerns and helped me to proactively deal with health related and pregnancy issues. I've been through a lot of ups and downs, including miscarriages, surgery and diagnosis of endometriosis and pregnancy, with Dr Draznik and he's always been extremely professional and compassionate.

I had been bounced around from specialist to specialist for years until I finally found Dr. Draznik in 2013. For the first time, during my first appointment/consultation, I felt like someone was actually listening to me. He gave me options & we scheduled surgery. He diagnosed me with endometriosis - since then he has been on my side 100%. Always there when I have a question or concern, he is so kind and personable. I have never had a better Doctor of any specialty. Absolutely amazing.

Dr. Draznik has always been a gentleman, considerate. He always remembers my husband and children's names who he has delivered and asks about them. I have never had an issue with him and been seeing him for about 33 years.
