Dr. Schwartz was the best! He assured us from the beginning that he was only going to make decisions with our baby and my health in mind and I strongly believe he did just that. My water broke in the middle of the night at 37 weeks and Dr. Schwartz walked me through labor calmly and DELIVERED MY CHILD WITH ONE HAND. He bragged about it afterwards. Dr. Schwartz also checked in on me consistently after delivery and really cared about my wellbeing. 10/10 would recommend!

This doctor to me seem so confused and does not seem to know what he is doing. He comes up with a diagnosis that the test results don't support. He forces his diagnosis on patients without any sense of empathy. He make his patients more depressed by the way he says things them, which even makes their condition worse that it is supposed to be. I am right now looking for other alternatives as i will never allow this doctor continue with my wife's delivery. He is poor all round and condescending.
