Operation Rescue earlier reported (<https://www.operationrescue.org/archives/carnage-abortionists-log-4-botched-abortions-in-4-states-last-weekend/>) that one documented medical emergency took place at this Planned Parenthood facility on February 6, 2015. Sidewalk counselors have now reported that a previous incident took place on Saturday, January 31, 2015.

**ANOTHER AMBULANCE! Two within a weeks time! We were just informed by one of our sidewalk counselors that last Saturday another ambulance was seen leaving this same Planned Parenthood!**

Since then, ambulances were photographed at Planned Parenthood abortion clinic in Houston on February 25th and 26th.

“That makes 4 in less than 30 days!” noted a Houston Coalition for Life in a February 26th Facebook posting. “If you saw a ‘clinic’ with an ambulance leaving on average once a week, would you trust their medical practices?”

Not much is known about the condition of the four women. Operation Rescue is seeking the 911 records related to these four incidents, which may shed additional light on what happened and the dangers that exist at this Planned Parenthood facility.

“Even though this Planned Parenthood abortion clinic is licensed as an Ambulatory Surgical Center, it is evident that safety problems still exist there. It is imperative that the Texas Department of Health take seriously complaints about this facility and act to shut it down,” said Operation Rescue President Troy Newman.

### 911-Botched Abortion He...

Operation Rescue has documented at least five other medical emergencies at this Houston Planned Parenthood facility, making nine in all over the past three years. However, many more could have occurred outside the presence of pro-life activists who document these incidents.

Operation Rescue has also reported that court records indicate that as many as 1,000 women are hospitalized in Texas (<https://www.operationrescue.org/archives/court-records-indicate-nearly-1000-abortion-patients-likely-hospitalized-annually-in-texas/>) each year due to abortion complications.

A new abortion clinic licensing law known as HB2 has helped close 20 of the worst offending abortion facilities in Texas over the past two years.

“It is obvious that Texas has a long way to go to fully protect women from shoddy abortion practices,” said Newman.
