Kelita Fox, MD

University of Wisconsin Department of Family Medicine, Residency

Dr. Kelita Fox was born and raised just outside of Toronto, Canada, and originally moved to the U.S. to compete as a member of the Wayne State University women's volleyball team in Detroit, MI. She stayed in Detroit for medical school where she first became interested in preventive health and care of the whole family. Dr. Fox completed her residency with the University of Wisconsin Department of Family Medicine in Madison, WI where she was able to pursue her interests in obstetrics and further appreciate the importance of comprehensive reproductive health care for women and access to this care.

Outside of medicine, Dr. Fox enjoys exploring NYC with her husband, watching and playing sports and eating lots of West Indian food!
