### Personal profile

#### Bio

Lauren Thaxton came to Dell Medical School from the University of New Mexico, where she completed both her residency in obstetrics and gynecology and her fellowship in family planning. She received her medical degree from Texas Tech HSC School of Medicine and holds a master's in biomedical sciences with a focus on clinical research and a master's in business administration with a focus on health organization management.

Thaxton's research is focused on patient-centered care in contraception, abortion and outpatient anesthesia. Her publications have been published in journals such as The American Journal of the Medical Sciences, the American Journal of Obstetrics & Gynecology and the International Journal of Gynecology and Obstetrics. She has been invited to present posters and abstracts pertaining to her work at the regional and national levels. Her work is supported by funding through the Society of Family Planning.

Thaxton lives in Austin with her husband Daniel, whom she met in medical school. They have two incredibly spoiled dogs.
