## MEDICAL ADVISORS /

### We gratefully acknowledge the people who helped us get here

Bedsider has been developed with the assistance of many experts and many young adults as well, who are Bedsider's main audience, and we thank them all for their guidance and insights. We are especially grateful for the advice provided by the [Medical Advisory Committee of The National Campaign to Prevent Teen and Unplanned Pregnancy](#) (roster below). Even so, responsibility for the content of Bedsider, including all medical information, rests solely with The National Campaign itself.
