Horrible, most unprofessional office!

Dr Sandra is absolutely absent minded and is only available 1 day a week and is completely unreliable. Been trying to get my prescription for 2 weeks spent an hour on the phone and no prescription even though they knew I was leaving the country tomorrow. Had to call 6 times and got blown off. Place should be shut down!!!! And she should be let go!

My experience with Eastside gynecology was exceptional! They explained how my health insurance would work for my examination in advance and I had no surprise on my way out of the office. And it was pretty easy to make an appointment. The waiting room was roomy and clean and I was waiting with snacks on the table. Every single staff here was really caring and patient with me. Well I understand everyone has a different experience and expectation, I didn't come in for a complicated issue so I was happy with the consultation I've received. Thank you so much and I'll definitely refer my friends if they need your services near future.

I came to Eastside Gyn as a recommendation from one of my friends, and I am glad I listened to her! I have just recently moved into the city from NJ and needed a follow up exam. My previous doctor transferred my old records, and Eastside had all of my records in my file and reviewed them before my appointment. The staff was so sweet and made me as comfortable as possible throughout my whole appointment, and answered all my questions. It is in a great location and they understand that we all have busy lives, so they got me in and out as quickly as possible, but without rushing me. Definitely would come again.

I was cleaning my house and found proof I was seen in this office. I was charged over 300 dollars for an unprepared doctor to barely touch me. Take your care somewhere else.

★★★★★ 5/2/2019

This was the best experience I've had at a gyn in a long time. The staff are so friendly, and spoke to me about the procedure I was getting done. They asked questions and were extremely informative. My nurse was so warm and comforting that my nerves were at ease. My wait time was long, about 45 minutes, but once I was seen, I was moved through my services pretty quickly. Overall, a great place for all of your womanly needs!

★★★★★ 2/4/2019

I had an appointment booked for almost two weeks now and I just received a phone call, 26 hours before my appointment, telling me that if I didn't come in an hour \*before\* my appointment time, that I would definitely have to wait for an unforeseen amount of time in order to be seen by the doctor. Whomever I spoke with on the phone tried to act like this was my issue and mine alone, basically telling me my time was invaluable and trying to convince me that this was a very "regular" thing and not the result of careless overbooking. I took time off of work in order to make this appointment and now I'm cancelling it. Really terrible experience and very rude people managing the phones.

Ok ladies stay away from this facility. They are extremely unprofessional. Doctors, nurses etc... they have outside conversations regarding their life right in front of you. When I was called to the back for the procedure, the very tall African

American nurse who called me into the OR room pronounced my name incorrectly. I then kindly corrected her and her response was "OH". While in the back I had to wait about 10 mins for the doctor who the nurse and now anesthesiologists were talking sh\*t about. Like hello I'm sitting right here. SMH. The doctor comes in and now I'm debating if I should just get up and leave because she was just as horrible as they described her smh. Long story short it's been a few weeks since I had this procedure and I am still bleeding. I really wish I had never went to this place. Ladies stay away!!!

★★★★★ 1/8/2019 I was a nervous wreck when I walked into this office. However, that fear soon faded when an employee noticed I was in tears. She asked me if I needed to speak to someone. I said I had so many questions and even though I hadn't finished the paperwork, this kind woman gave me so much of her time. She fully answered all of my questions about the procedure and even gave me time to fight back the tears. I was introduced to the doctor who also gave me time to ask questions as well as to have them fully answered. I can't say enough good things about these folks. I am so thankful that I found these wonderful professionals who took such good care of me. After the procedure they kept me until I was ready to leave. They never rushed me. Having a procedure is a tough decision but you can rest assure that your body and emotions will be well cared for at Eastside!

★★★★★ 8/30/2018 · Updated review 1 photo If I can give this place 0 stars I would. These people are scammers! These people billed my insurance \$5,625 for a procedure they did not do because they didn't feel safe going along with the procedure okay I understand... however I was told the same thing by Vanessa, who told me the day before I need a clearance letter, okay so we rescheduled. The day before I explained to her I couldn't obtain the letter because in the hospital I was staying at they never heard of that. So she said it's fine come in, anyway. So I did all they did was put in this nice beautiful room, and I had to fill out a bunch of paperwork, and all I had was a sonogram done. Still the anesthesiologist didn't feel safe doing the procedure because of the car accident I was in... the same information I was told on the phone but they still told me to come in anyway, to what? Just bill my insurance now I owe \$1,400! Out of pocket! For no procedure!!! They charged my insurance \$4,500 for a Sonogram!!! Meanwhile on the phone I was told to just bring \$600 and the rest my insurance would cover. I'm going to expose this place because this is so wrong, I'm in a freaking wheelchair my expenses are already out of this world! I attached the proof of what they charged me, Please DO NOT come to this place. Avoid at all costs!

Was a patient here but continued to come in after moving jobs which changed the commute from fifteen minutes to nearly an hour. After calling me several times to come in for an annual pap, I came in. Filled out complete registration forms AGAIN, despite the fact that no information had changed. Waited a full forty minutes in the room waiting for the doctor. To my surprise, a woman entered with the nurse. She did not introduce herself so I asked where my doctor was. I was told that he had not been in since December, and I "should have been told". Umm... obviously I wasn't. The doctor told me that unless I had a problem, an annual was unnecessary. Okayyyy. She then "examined me" for exactly three minutes. She was in and out in literally FOUR minutes. Irritated to have taken the day for a four minute visit, which was requested by apparently unnecessary, and with a stranger.

I really don't understand the bad reviews. Please if you're looking for a place that makes you feel not only comfortable but that you're not just a patient come here. They are amazing! So friendly and caring. the facility is beautiful and clean. Cute pink

robe type gowns. It really makes a difficult time easier. I've gone to planned parenthood where they take forever to take care of you. I came here for two miscarriages and I would recommend this place to anyone who needs to make a difficult decision.

Bonus! The snacks are way better than planned parenthood who just give you crackers like you're a duck in Central Park.

 my entire experience at this place has been a nightmare. Besides Rosie who drew my blood and the sonogram tech, everything else has just been a horrible experience. I went there for an exam and was told to speak with a counselor who has clearly no knowledge of what is going on. The billing department charged me which they are not suppose to do before billing my insurance and the counselor ran may card for more then i was told. My blood results came in (i got a text) called for results and left a message and never got a call back. When i called back 5 hours later the receptionist told me the surgical staff had left. Women try to find a compassionate place to go and this place is NOT it. There is no professionalism, there is lack of communication and it is ran very inefficient. A woman health is sensitive and can be stressful and i know that for me they have definitely added to my stress. My GYN referred me to them and i will go back and complain to her about this place. Are they there to help women or just to collect ?? I'm very disgusted.

 Having many difficulties trying to conceive I received the best news that I was finally pregnant. A few days ago I went to see my OBGYN and received the terrible news that I had miscarried and was referred to Eastside Gynecology. They provided me with a car to and from my house as well as a private room. The staff was so caring and helpful during this tough time. I was a little disappointed that I was only able to bring my husband because they have a limit on escorts and my sister and mom really wanted to be there with me for support. Overall Eastside was amazing, hopefully I won't have to return but if needed I would definitely go back.

 Don't come here.

I've been coming here for the past four years. Today, I arrived for my annual exam. I expected the same level of professionalism and courtesy that I've always encountered here. Instead, I was told after waiting for 15 minutes that I had an outstanding amount of \$80. I asked how this was possible because I had been coming here for the past four years, and I had always been told that there was no copay. Which makes sense because annual exams are covered under Obamacare.

I was told that the outstanding amount came from 2014!! I've been coming consistently since and no one mentioned anything. All of a sudden I was accused of not paying bills. They told me that it was for services outside of my annual exam (which I have never asked for and to my knowledge never received). They also claimed to have sent mail to my address. When I mentioned that the address they now have on file is a new address, they told me they didn't know what to tell me. They could not state where or when these supposed letters had been sent. The billing woman was very unpleasant and told me she couldn't waste anymore time discussing this with me. At that point, I got up and left. I'm so angry that they wasted my time and made me late for work. This should have come to my attention YEARS earlier, and definitely at the time I made this appointment.

Needless to say I won't be coming back. I made an appointment at a different location the minute I left for the next day.

Very disorganized. I waited 2 hours just to get bloodwork done. I said that I did not want to have an actual exam because I had one a few months prior and did not need it. I just wanted updated bloodwork and urine as well. They told me that bloodwork and urine would suffice and that I did not need an exam if I did both.

When I went to pick up my results, they told me that someone should have called me because they do not test anything in urine. SOOO why did I have a urine sample taken? Makes absolutely no sense. So I had to have an exam and then wait for those results. I then had to wait almost an hour for them just to print out the results of the bloodwork for me. Wow!

I won't go into more detail but definitely search elsewhere.

This is an awful office that will quote a normal abortion fee and then grossly overcharge. On March 31, 2017 I had an MVA performed at 5 weeks pregnant and was quoted \$550. At the time, I felt it was a reasonable price and very comparable to other NY abortion clinics. 2 weeks later, I received a bill for \$22,000. The cost of the "surgery" itself cost \$17,000. The one (15 second) ultrasound cost \$4500. Thankfully, my insurance covered nearly 90%, however the \$1700 is still absolutely ridiculous compared to the \$550 quoted. Do not go here. They will make your painful decision to terminate even more miserable and tortuous.
