Name: BLUE MOUNTAIN CLINIC INC

Form 990 (2017)

Form 990, Part III, Line 4a:

Blue Mountain Clinic is a mission-driven 501(c)3 non-profit corporation organized in the state of Montana and is governed by a volunteer board of directors. Located at 610 N California Street in Missoula, MT, we are the only independent, non-government funded primary and family medicine clinic in the United States that has fully integrated family medicine, mental health counseling, abortion care, and comprehensive trans* care into our daily practice. We are not subsidized by any government money, are not a title X organization and do not offer a sliding fee scale for services. Because of this we are not eligible for many programs that offer amenities such as discounted birth control, sliding scales and large government grants. While such programs can be beneficial, we have always held the belief that we do not want federal regulations to influence how we care for our patients. This status does allow us to have complete autonomy in how we provide care while staying committed to our mission. BMC directly impacts the lives of over 10,000 patients per year who access a wide range of health services within our choice-based, primary medicine model. This is evidenced by the fact that 25% of our clients are traveling 100 miles or more to receive care at BMC. Since 2013 the demand for our care has increased by almost 30%. Blue Mountain Clinic is called upon daily by those who need care for their families, at an ever-increasing rate. This is a direct reflection of changes in our current healthcare environment, expanded services at BMC, lack of access due to clinic closures both in our region, and across the state, the retirement of several local family medicine doctors, anti-choice legislation, and most recently the expansion of Medicaid programs in Montana. In addition to our primary and reproductive care clients, we have been providing care to transgender patients throughout the Northern Rockies for over 16 years. In 2012, after receiving a grant from the Pride Foundation, we further strengthened our Trans* care through training, advocacy and marketing. Because of these trainings we have more than quadrupled the number of trans* identified patients we care for ranging in age from 9 to 72 years old. Our Medical Director Eric Ravitz, DO has been with the clinic for 17 years, our female MD Dr. Joey Banks 5 years, Kelly Polus PA-C 13 years, Alison Charman, ARNP 6 years, and our mental health counselors have been with us for 10 years. Most of our support staff have been working at Blue Mountain Clinic for over 10 years. Per the US Census Bureau, Montana and the Northern Rockies are home to some of the least populated regions, resulting in a large concentration of rural areas. These sparsely populated areas often result in very limited access to many of life's necessities, including health care. Reports released by the American Medical Association and the American Academy of Family Physicians indicate that we will continue to experience a critical shortage of family medicine clinicians and clinics. The shortage is due in part to retiring physicians as well as a recent trend emerging where providers are choosing specialty areas of medicine over family medicine because they offer much higher salaries. In a report released by the Montana Office of Rural Health (MORH) a serious shortage of primary care physician services is cited in Montana. The distribution of physicians in Montana is extremely uneven, with 37% of all primary care physicians practicing in only three cities and 40 of Montana's 56 counties are designated health professional shortage areas. As we witness these changes and prepare for great uncertainty in the landscape of our healthcare both regionally and nationally, it is of the utmost importance that we remain a sound presence to ensure access to independent, choice-based health care that respects the power of personal connection. Blue Mountain Clinic advocates for its clients, community and region in the following areas. We are starting our 6th year providing critical gynecological training to residents in the Western Montana Family Medicine Residency Program. We train 10 residents a year preparing them to provide comprehensive reproductive and family medicine through our choice based lens. We are striving to ensure these residents will continue to practice and provide care filling the need for healthcare in our rural areas, many of which Blue Mountain Clinic currently serves. Dr. Eric Ravitz has served as the Medical Director for the Missoula Youth Homes for the past 10 years. The Youth Homes provide transitional and long-term housing and services to Montanas youth- from all over the state. Having Dr. Ravitz as their medical director enables them to offer a mental health component ensuring the whole health and safety of our most vulnerable populations. Dr. Joey Banks is currently serving as the Medical Director for Open Aid Alliance, a free clinic, located in Missoula, MT that strives to prevent HIV, hepatitis C and sexually transmitted infections through testing, education and outreach. Blue Mountain Clinic serves as one of the treatment sites for positive STI results when necessary. In anticipation of being defunded, Planned Parenthood has decided not to renew their youth education program, and therefore Blue Mountain Clinic will be absorbing this, in addition to our own current program. While we have always provided education and outreach within our schools, from topics as simple as healthy sexuality, to more sensitive topics including consent, bystander intervention and teen suicide, this will more than double anything that we have ever done in the past. After an informal statewide survey completed in the summer of 2016, it was discovered that Blue Mountain Clinic is one of the only clinics in the state of Montana that provides a Comprehensive Trans* care that includes family medicine, hormone replacement, mental health counseling, and support and advocacy for reassignment surgery. b Is one of the only remaining clinics not limiting or capping the amount of Medicaid patients. c Is one of a handful of clinics left that continues to serve our Medicare population. Even locally, we see many clients who have been with their same doctor for 40 years or more, and are suddenly finding themselves discharged from the practice simply because they have termed onto Medicare. Can you imagine what it would be like to be with the same clinician for decades, only to find you healthcare displaced, simply because your insurance has changed? d Is the only clinic of its kind where one can receive a full spectrum of family medicine, mental health counseling, reproductive and Trans*care all under one roof, without receiving any government funding, grants or designations.
