Specialty care services in Colorado

Programs and classes

Health topics

I grew up in Green Bay, Wisconsin, and eventually made my way to Colorado to escape the harsh Midwestern winters. Ever since I was a child, I planned on becoming a physician - I have always loved science and also felt a strong need to help others. After my training, I moved to Colorado and was in private practice for about 5.5 years. I have had the pleasure of serving Kaiser Permanente members since April 2016. I am incredibly grateful for the opportunities that both Colorado and Kaiser Permanente have given to me, which allow me to live this wonderful life. I was honored to be recognized as a 5280 Magazine Top Doctor in 2019.

### About my practice

I love being an ob-gyn because it enables me to help women in so many different areas of their lives. Whether I am assisting patients in delivering their children, helping them deal with menopausal issues or discussing contraception so they can best plan their future, being an ob-gyn allows me to help people live the best lives they can imagine. I consider it the best job in the world!

### How I thrive

When I am not working, I love staying active. Colorado is a great backdrop to do this! I love to hike and snowshoe. I like to strap on my snowboard during the winter months and I'm hoping that one of these days I will master the skill. I also love to travel and am always looking to put another stamp on my passport. I have been fortunate enough to combine my love for travel with my desire to practice medicine, and I have gone on several surgical mission trips to Guatemala and the Philippines over the last few years. And even though I love Colorado, I was born and raised a cheesehead, so a bigger Packers fan you will not find. Go Pack Go!

To find:

- a Kaiser Permanente provider's **office hours**, search our facility directory.
- network providers' **office hours**, call their office directly.
- providers **in your plan** or **accepting new patients**, call **303-338-4545** or **1-800-218-1059** or 711 (TTY for the hearing/speech impaired), 24 hours a day, 7 days a week.

Information in this online directory is updated periodically and applies to commercial plans underwritten by Kaiser Foundation Health Plan of Colorado. The availability of physicians, hospitals, providers, and services may change. To verify whether a provider accepts Kaiser Permanente plans, contact the provider directly. Current provider information is available at [kp.org/locations](https://kp.org/locations). This information is updated within 72 business hours of receipt from providers. Kaiser Permanente of Colorado attempts to ensure the online directory contains up-to-date information. However, providers are responsible for notifying [kp.org](https://kp.org) of any changes to their information, and untimely communication may result in outdated provider information appearing on the website. The printed directory is current as of the date of publication. Kaiser Permanente is not responsible for use of outdated directories.

Kaiser Permanente considers the following factors/criteria as it builds and maintains provider networks:

- Size and demographics of the population to be served;
- The inventory of provider types required to serve the population and using practitioner to member ratios and

geographic access standards metrics to ensure adequacy;

- Application of rigorous credentialing criteria encompassing but not limited to educational training, licensing, professional experience, board certification, and professional references.

Kaiser Permanente uses the same quality, member experience, or cost-related measures to select practitioners and facilities in Marketplace Silver-tier plans as it does for all other KFHP (Kaiser Foundation Health Plan) products and lines of business. Members enrolled in KFHP Marketplace plans have access to all professional, institutional and ancillary health care providers who participate in KFHP plans' contracted provider network, in accordance with the terms of the members' KFHP plan of coverage. All Kaiser Permanente Medical Group physicians and network physicians are subject to the same quality review processes and certifications.

Kaiser Permanente uses the same geographic distribution consideration to select hospitals in Marketplace plans as it does for all other KFHP products and lines of business.

Information about a practitioner is provided to us by the practitioner or the practitioner's network, or is obtained as part of the credentialing process. An authorization or referral may be required to access some providers in this directory. If you have questions, contact Member Services.

To report any inaccuracies in the directory, contact Member Services. Members may also report inaccuracies at [kp.org/memberservices](https://kp.org/memberservices).

**Questions?** Please call or visit your local Member Services department.

The TTY number is now 711 for all KPCO

You can also call the State of Colorado Board of Medical Examiners at (303) 894-7690.

### **Referrals to affiliated/contracted physicians/providers in Denver/Boulder**

Affiliated/contracted physicians/providers are not part of the CPMG (Colorado Permanente Medical Group). They are physicians/providers who have a contract with the CPMG.

If your CPMG physician decides that you require covered services not available internally from CPMG, he or she will refer you to an affiliated/contracted physician/provider.

You must have a written referral to the affiliated/contracted physician/provider in order for Kaiser Permanente Colorado to cover the services. A referral is a written authorization from Kaiser Permanente for you to receive a covered service from an affiliated/contracted physician/provider.

### **PHYSICAL DISABILITIES ACCOMMODATIONS**

It is our policy to make our facilities, services, and programs accessible to individuals with disabilities, in compliance with federal and state laws that prohibit discrimination based on disability. Kaiser Permanente provides reasonable accommodations to individuals with disabilities, including: (1) access to service animals and their users, except where the animal poses a significant risk to health or safety; (2) appropriate auxiliary aids and services when necessary to ensure effective communication with individuals with hearing, cognitive, and/or communication-related disabilities, including qualified sign language interpreter services and informational materials in alternative formats (examples include large print, audio tape/CDs, electronic texts/disks/CD-ROMs, and

Braille); and (3) accessible exam rooms and medical equipment for individuals with disabilities. If you have a specific question, please contact Member Services, Monday through Friday, 8 a.m. to 6 p.m., at 303-338-3800 (TTY 711).
