**OUR PRACTICE:** Advanced Urogynecology is a total women's health center. Our urogynecologists provide full gynecologic care. In addition we specialize in pelvic floor disorders, such as urine loss, frequent urinary infection, sagging pelvic organs and sexual disorders.

**OUR SERVICES:** We offer natural and non-drug solutions for a variety of common conditions. We are able to quickly and comfortably treat symptoms such as heavy bleeding, urine loss, and a need for sterilization right in our office suite with minimal recovery time! We offer pelvic muscle rehabilitation on-site, a non-invasive method of vaginal rejuvenation which will also improve urine loss, prevent drooping pelvic organs, and improve sexual satisfaction. Should surgery become necessary, our surgeons are skilled in vaginal and cosmetic reconstructive techniques as well as robotic-assisted surgery. **INNOVATIONS:** We are excited about our new Wellness Program, in which we offer physician-supervised weight loss. Patients are having amazing success in attaining their ideal weight and looking fabulous with our program. **AWARDS/HONORS:** Our doctors are educational leaders, involved in medical education and sought as featured speakers both locally and nationally. Dr. Walker is this year's recipient of the Patient Choice Award. We are also proud to have Dr. Jackson honored on this year's Best Doctors list!
