### DESCRIPTION

Access to high quality abortion care is essential to women's health, as evidenced by the dramatic decrease in pregnancy-related morbidity and mortality since the legalization of abortion in the United States, and by high rates of maternal death and complications in those countries where abortion is still provided under unsafe conditions.

The past two decades have brought important advances in abortion care as well as increasing cross-disciplinary use of abortion technologies in women's health care. Abortion is an important option for pregnant women who have serious medical conditions or fetal abnormalities, and fetal reduction techniques are now well-integrated into infertility treatment to reduce the risks of multiple pregnancies resulting from assisted reproductive technologies.

#### ABOUT THE AUTHOR

- Maureen Paul, MD, MPH – Planned Parenthood of NYC, Mt. Sinai School of Medicine
- E. Steve Lichtenberg, MD, MPH – Northwestern University School of Medicine
- Lynn Borgatta, MD, MPH – Boston University School of Medicine
- David A. Grimes, MD, MPH – University of North Carolina School of Medicine
- Phillip G. Stubblefield, MD – Boston University School of Medicine
- Mitchell D. Creinin MD – University of Pittsburgh School of Medicine

#### TABLE OF CONTENTS

Section I Abortion in perspective.

4 Abortion law and policy in the USA (Bonnie Scott Jones JD, and Jennifer Dalven JD).

### Section II Pre-procedure care.

5 Informed consent, patient education, and counseling (Anne Baker MA, and Terry Beresford BA)

6 Clinical assessment and ultrasound in early pregnancy (Steven R. Goldstein MD, and Matthew F. Reeves MD, MPH).

7 Medical evaluation and management (Anne Davis MD, MPH, and Thomas Easterling MD).

8 Pain management (Mark Nichols MD, Glenna Halvorson-Boyd PhD, RN, Robert Goldstein MD, Clifford Gevirtz MD, MPH and David Healow MD).

### Section III Abortion methods and techniques.

9 Medical abortion in early pregnancy (Mitchell D. Creinin MD, and Kristina Gemzell Danielsson MD, PhD).

10 First-trimester aspiration abortion (Karen Meckstroth MD, MPH, and Maureen Paul MD, MPH).

11 Dilation and evacuation (Cassing Hammond MD, and Stephen Chasen MD).

12 Medical methods to induce abortion in the second trimester (Nathalie Kapp MD, MPH, and Helena von Hertzen MD, DDS).

13 The challenging abortion (Lynn Borgatta MD, MPH, and Phillip G. Stubblefield MD).

### Section IV Post-procedure care.

14 Contraception and surgical abortion aftercare (Eve Espey MD, MPH, and Laura MacIsaac MD, MPH).

15 Surgical complications: Prevention and management (E. Steve Lichtenberg MD, MPH, and David A. Grimes MD).

16 Answering questions about long-term outcomes (Carol J. Rowland Hogue PhD, MPH, Lori A. Boardman MD, and Nada Stotland MD, MSc, MPH).

### Section V Management of abnormal pregnancies.

17 Pregnancy loss (Alisa B. Goldberg MD, MPH, Daniela Carusi MD, MSc, and Carolyn Westhoff MD).

18 Ectopic pregnancy (Jennifer L. Kulp MD, and Kurt T. Barnhart MD, MSCE).

19 Gestational trophoblastic disease (Neil J. Sebire MD, and Michael J. Seckl MD, PhD).

20 Abortion for fetal abnormalities or maternal conditions (Jeffrey S. Dungan MD, and Lee P. Shulman MD).

21 Multifetal pregnancy reduction and selective termination (Mark I. Evans MD, and David W. Britt PhD).

### Section VI Abortion service delivery.

22 Providing abortion in low-resource settings (Laura Castleman MD, MPH, MBA, Beverly Winikoff MD, MPH, and Paul Blumenthal MD, MPH).

23 Ensuring quality care in abortion services (Beth Kruse MS, CNM, ARNP, and Carla Eckhardt CPHQ).

Appendix: Resources for abortion providers (Melissa Werner MPH, MAT).

## REVIEWS

"This is a highly informative, well-referenced book, which covers the subject detail in a balanced, humane, sensitive and women centred way. The book is upbeat and positive about the alliance of abortion with sexual and reproductive health and the new prospects for leadership in abortion care resulting from this. This book is an essential read for those providing counselling and assessment for abortion care, as well as those providing abortion procedures." (British Journal of Sexual Medicine, October 2010)

## FEATURES

The Official Textbook of the National Abortion Federation

This book uniquely presents a breadth of information and expertise

Updated protocols for non-surgical induced and spontaneous abortion
