Michigan abortion doctor retires – pro-lifers celebrate

According to pro-life activist Lynn Mills, Michigan abortionist Lewis Trigg retired DEC. 15, 2013. According to the state medical board his license is set to expire the end of January 2014.

Mills who does excellent research work in the pro-life movement, stated that Trigg, "TOLD THEM HE WAS RETIRING? LEWIS TRIGG RETIRED DEC. 15, 2013, CAME INTO THE

she refused, Nichols forced her to sign a waiver. Patient drove home and was taken by her family to the hospital where the staff confirmed the rupture of fetal membranes. The patient's 20.5 week baby died in utero the following day. The Board of Medicine found Nichols to be negligent and incompetent, fined him \$10,000, and ordered him to perform 100 hours of community service. At the Womancare Clinic of Southfield, a patient alleges that she received

no local anesthesia and tried to stop procedure due to her extreme pain. The patient was allegedly held down and female assistant put hand over the patient's mouth. (*Allegation filed with the Bureau of Health Professions, August 18, 2008, File No. 43-08-109481. Hospital records obtained by RLM.*)

On October 22, 2010 The Michigan Attorney General, and the Eaton and Saginaw County Sheriff Departments completed a 7 month-long investigation of the Womans Choice abortion clinics located at 6500 Centurion Drive, Ste. 290, Lansing and 3141 S. Cabaret Trail, Ste 400, Saginaw, Michigan—owned by Florida resident Richard Remund.

The investigation was prompted by the February 26, 2010 discovery by pro-lifer Chris Veneklas, of the bodies of 17 aborted babies in a trash dumpster used by the **Womans Choice Lansing abortion clinic**. The 17 bags were clearly marked with, not only the January dates of the abortion procedures, but also the full names of the women whose unborn children were contained within the plastic specimen packs. Before making a decision to search the dumpster, Veneklas observed clinic staff, over a series of weeks, tossing large black bags into the commercial grade trash container that services the business park where Womans Choice is located. Veneklas became suspicious that the clinic was getting rid of bio-hazardous material. A bio-waste disposal van was never seen serving the facility where abortions are conducted through the 24th week of gestation.

Upon finding the bodies of aborted babies Veneklas immediately contacted Monica Migliorino Miller, director of Citizens for a Pro-life Society who then joined Veneklas in subsequent searches of the Womans Choice dumpster. Miller also organized searches of the dumpster

used by Womans Choice sister clinic in Saginaw, MI. These searches continued through March 2010.

Venklase and Miller discovered bloody surgical material in the clinic trash bags as well as several patient records from both abortion facilities. Many documents bore the names of Drs. Lewis Twigg and Ronald Nichols—who conduct the abortions at Womans Choice clinics. View Images [here](#)
