Review for ABRAHAM S ANDERSON

Dr. Abraham Anderson is an excellent Doctor who has historically treated patients in our community (Tidewater, Virginia) that many turn away without thinking twice about it, including those who are uninsured and non-English speaking immigrant communities. He has also long-served the military community here as a civilian Doctor. Over the years, many harassed and directed violence towards him and his family due to his stance on abortion, and he weathered the storm, defending a woman's right to choose, whatever his own personal sentiment on the issue. Later in life, he did ultimately stop performing abortions, while also serving as a key witness in several court cases across the country documenting the violence (including death by violence) suffered by many doctors defending a woman's right to choose. Dr. Anderson is a kind and caring man, deeply committed to serving the women of our community, whatever their background, income level, race or ethnicity. Now that he has retired, he will be truly missed. Sadly, his contribution to our community has not been duly recognized.
