

Not Just the Unborn

For those of you who think pro-lifers only care about fetuses, I've started a separate blog to rant about other issues that I'm passionate about. Find out what else is compelling to this "friend of the fetus."

Sad anniversary: Lisa Bardsley's death

[Lisa Bardsley](#), age 26, died in 1995 after an abortion by Arizona abortionist [John Biskind](#). Biskind was censured by the state medical board for the death.

Biskind went on to get into further trouble for delivering a live, nearly term infant during an abortion performed on a teenager, and for the abortion death of [Lou Ann Herron](#). Herron's death got far more press than Bardsley's, whose death for some reason did not capture public attention or generate outrage the way Herron's death did.

Biskind's license was finally revoked in 1998.

The clinic where Lisa died was owned by abortionist Moshe Hachamovitch, who was implicated in the abortion deaths of [Christina Goesswein](#), [Tanya Williamson](#), [Jammie Garcia](#).
