# Papaya Workshops for Everyone!

June 4, 2019 | [Reproductive Health Access Project](https://www.reproductiveaccess.org/author/reproductive-health-access-project/)

centered counseling in action.

We invited all of our New York City area donors to attend a papaya workshop... attendance at 15 – the most we can comfortably fit around our table... our New York fellows, led the workshop and our Development Director... with an unintended pregnancy during the role-play portion of the workshop.

All of our workshops typically follow this format: Introduction to the workshop is how we model non-judgemental discussion of pregnancy options... pregnancy and provide an overview of [early abortion options](https://www.reproductiveaccess.org/resource/early-abortion-options/). In our role-play, the patient ends up choosing an aspiration abortion. At that point, we explain the procedure as we would to a patient, and then follow that with a demonstration of the procedure on a papaya using a manual vacuum aspirator.
