I wish i had read these reviews before going to this clinic.

As if going to the gynecologist wasn't bad enough, this clinic is dehumanizing, has faulty machinery, rude receptionists and a deceptive doctor.

i should have known when I called to make an appointment and was put on hold 4 times and then asked the same repetitive questions as I was ping-ponged between receptionists.

I went to get birth control and was forced to take a series of tests I hadn't asked for. I don't have health insurance and was actually fine to pay the \$250 upfront - until i was told I couldn't receive any birth control script that day as I "hadn't had my period yet" and that I could get a script the next time I turned up, (at an extra fee) to collect my results.

Almost in tears at this stage, i explained money is tight at the moment and I can't keep affording to pay fees for consultations as I all would like is birth control. The doctor finally was talked in to giving me at first a 1 month script for the pill, and then finally a 3 month script after i agreed to come back for check up after 3 months.... upon the condition my blood pressure was ok.

We go to check blood pressure and the machine is broken. The nurse then struggles for 5 minutes to check my pressure manually. She finally says she has it and I go to leave reception (after 1.5 hours at the facility) - but there is no script waiting.

Upon querying this with reception I'm told the doctor has gone on lunch and then I wait another half an hour until his return, at which point he says my blood pressure was too high and he couldn't give me a script.

Because money is tight I reign in my frustration and go back for my results the next fortnight, but insist that when I get a script it is for 6 months. The doctor finally says he will give me 3 with a repeat. My blood pressure is great when checked by a different nurse in a new room. She tells me the old machine in the other room has never worked and all staff are aware of it. I then go to leave and the doctor forgets to tick the box for the repeat on the script.

NEVER - EVER, EVER, EVER - GO TO THIS CLINIC.

Omg.. I'm so happy to be changing doctors! This place is horrible!! DO NOT MAKE AN APPOINTMENT!!!! I feel like all they want is your money! They will make you come back and pay the co-pay feels as well as God knows what else they can find to charge you. The doctors are not personable at all..like they could care less who you are and what you need. Save your money and time (as you will wait 40min-1hr) before you see the doctor. Better to do your research and go with a doctor who truly cares about your health and not just your wallet. This places needs to shut down!!!

First to Review

I went to this place because planned parenthood told me I'd be waiting for hours which I didn't have time for and needed my birth control that day cuz it was the last day I could get it. I'm

from LA and was staying in NYC for a month for work. I called to make a birth control appt. "birth control appt" My insurance is kaiser and they don't accept them for some reason. So I had to pay outta pocket \$250 for the dr visit. They said they had to do a pap, which I did not ask for but thought maybe it's protocol and was apart of the \$250. After they give me this prescription note and tell me to go down to Duane reade to get my Depo shot. Had to pay \$70 for that. Then came back to get the shot and they say it's \$35 to give it to me. Nutss!!! 3 months later I get a bill in the mail saying I owe them \$595 from labs and different things I never asked for. They are so shady!!! And the dr is like 70 yrs old. Wtf is he doing still practicing. He was so shaky when giving my pap. Thumbs down!!!!

I wish I would have read the reviews before going here. On top of waiting over an hour for every visit and rude staff, the doctor is the worst part. He is old, uncaring, rough, and complains throughout the entire already uncomfortable session. During a recent visit he continually said "I can't see", "this isn't working" etc. He even told me it was my fault and we may have to do it again! I paid \$750, waited more than an hour, and was in pain the entire time. I have no desire, time, or money to do it again!! He is AWFUL. I am writing this review in hopes that no one will go to him. I wish I would've known...

WORST GYNECOLOGICAL EXPERIENCE OF MY LIFE. Was kept waiting three hrs to have a painful bartholyn cyst excised only to receive a partial drain and end up in the emergency room 2 days later. Do not go here. There should be a zero star option!
