Overview

About

Dr. Allison L. Gilbert MD is a female obstetrician and gynecologist in Boston, MA.

Edit Profile Info

Specialties

- [Obstetrician and Gynecologist](#)

An obstetrician (OB) is a physician specializing in pregnancy, childbirth, and the care that follows. A gynecologist (GYN) specializes in the health, diagnosis, and treatment of the female reproductive system. Training for these specialties often overlap, and many doctors are experts in both (OB/GYN). OB/GYNs manage all aspects of women's health involving the reproductive system through medical and surgical means.

- [Resident](#)

A resident physician is a doctor who has completed medical school and is training to specialize in a specific area of medicine, such as surgery, pediatrics, or oncology. This three to seven year period of postgraduate training is supervised by attending physicians. After completing a residency, doctors take examinations to qualify for specialist board certification. Residents are licensed medical doctors with the appropriate degree and license to practice, but they report to a board certified "attending" doctor. While they cannot admit patients, they can play a key role in providing care.

No Medical Board Actions Found
