Patient Care at Bellevue Hospital

Bellevue lays claim to being the oldest public hospital in the United States. Currently, it is the flagship hospital of the [New York City Health and Hospitals Corporation](#) and one of the most respected municipal hospitals in the country, providing patient care regardless of the patient's ability to pay. Bellevue is also the primary teaching hospital of the [New York University School of Medicine](#) and an integral component of the NYU Langone Medical Center Residency Programs.

Faculty members of the Department of Obstetrics and Gynecology are proud to contribute to the quality care provided at Bellevue Hospital, through their inpatient facilities, as well as their Women's Health ambulatory care clinic.

Faculty Physicians at Bellevue

Judita Bautista, MD - *Chief of Service*
