

[back to the abortion files](#)

## In Memoriam

The following list is a sampling of women who died during or immediately after, a **legal** abortion in the 1970's-1990's. (This is an incomplete list) Fact: 25% of women who have an abortion, get a serious complication, including death, sterility, perforation of the uterus etc. Note, visit the [Abortions Memorials page](#) - very consoling to those mourning aborted children and to women and their families who have been hurt by abortion.
