

Our Priority is You!

Planned Parenthood of Greater New York health centers are taking necessary precautions to protect our patients' and staff members' safety during the COVID crisis.

- All services will be virtual, except for abortion services and select in-person visits. **To book an appointment, please use the zip code search above.**
- **If you are experiencing a fever OR cough OR shortness of breath OR sore throat, please do not come to our health centers.**
- **We do not offer COVID testing in any of our health centers at this time.** For information on testing, call 1-888-364-3065.

Thank you for your understanding.
