Residency, Ob/Gyn Medical Resident, University of Washington
Affiliated Hospitals
Molecular & Cell Biology, UC Berkeley
Home Town: Santa Monica, CA

I chose to enter PRIME-LC because of its holistic approach to understanding and addressing the health needs of medically underserved people, including Latinos. By working as an HIV and hepatitis counselor in poor marginalized communities, I learned that there are many structural issues that affect people's health. Those who lack sustainable employment opportunities or do not have their rights protected by the government are much more likely to become ill. I wanted to learn how to medically treat those who are ill as well as to have
