3.

Medical records show that after the procedure, while in the recovery room at Respondent's outpatient facility, patient S.M. went into cardiac arrest and was transferred to

Atlanta Medical Center. Medical records show that CPR continued in the emergency room and gynecology was consulted because the patient had vaginal bleeding and distended abdomen. Medical records further show that patient S.M. was taken to the operating room for exploration for possible intraabdominal hemorrhage secondary to perforation. Medical records show that exploration revealed a suture on the posterior cervix. Respondent contends neither intraabdominal hemorrhage nor uterine perforation was discovered during exploratory surgery and that during this exploratory procedure, S.M. suffered an iatrogenic bowel injury.

4.

Medical records show a hysterectomy and a bowel repair were performed during the surgery at Atlanta Medical Center, and that postoperatively the patient manifested signs and symptoms of DIC. Medical records indicate vigorous blood product replacement was undertaken but patient S.M. coded in the ICU and died.

Did your fact search also find that Dr. Tyrone Malloy served honorably in the U.S. Army as a medical doctor? And in that capacity he saved countless lives.

Did your fact search further find evidence of the many, many newborn live births delivered by Dr. Malloy? I know because Dr. Malloy delivered my son, who today is 28years old and a successful professional and contributor to our nation, indeed, a global citizen. Thank you to Dr. Malloy.

So if you are going to report then I ask that you provide evidence of Tyrone Malloy — who is a man of God, and a physician. Don't just give stats that support your belief or claim. That is called dishonesty in research and in reporting.

First of all, no one who kills unborn babies can be a “man of God.” Secondly, if you want “proof” of Malloy’s actions, I believe I did a good job of documenting Malloy’s troubles. Perhaps you should re-read this blog post. Thirdly, I am glad Malloy did not kill your son in the womb, unfortunately, that is not the case for many of the other unborn children he aborted.
