The best Dr. and human being that exists, especially in this country it costs a lot to achieve this quality, it is true that the waiting time is horrible, but they prefer Drs. don't take the trouble to really know how they feel?

In my case, the first two pregnancies we successfully carried them thanks to him, now pregnant again I decided to find another dr. Well I was closer to where I live, how sorry I am!!! This new Dr. It's useless and now mark is full!

So,... See More

Krisi Ke reviewed Dr. Mark Spence —

August 2, 2017 ·

Full waiting room. Waited 2 hours to just receive results or hear them and had to have appointment for it, was charged for a visit, too. They verified that some annual tests were covered by my health insurance but they weren't and I had to pay for that too so I be allowed to get (hear) my test results. Nice doctor and some of the staff but postpartum visits are very pricy and difficult there if you have a nursing baby waiting. Cannot recommend place. Dr Spence was never there only other doctor.

Naty Mejia

doesn't recommend Dr. Mark Spence.

November 7, 2019 ·

If he's a great doctor he should take care of the schedule part of his appointments, this is going to be the second appointment cancelled with me. I doubt your share of knowledge, but I think patient s' time should be respected too. I read it's not the first time, it's very common in them not to warn that he won't be on their date.

Dr. Spencer was on call for the weekend in Malone Ny when my daughter had her baby. He saved them both very quickly not to mention his bed side manner was extraordinary. Thank you Dr. Spencer we won't ever forget you !
