GEORGIA PROFESSIONAL HEALTH PROGRAM NEEDS YOUR HELP! GA PHP is the nonprofit 501c(3) foundation that administers the Georgia Composite Medical Board's wellness program. GA PHP provides initial triage, treatment referral, and long-term monitoring services for health care professionals with addictive disorders, enabling many of these professionals to return to the practice of medicine with reasonable skill and safety. GA PHP receives no state funding, so it charges its participants fees to meet its operating expenses. In many cases, the professionals who participate are already financially strapped, so the program's success also depends on the financial support of donors willing to fund this important activity. To learn how you can make a tax-deductible donation to support GA PHP's partnership with the Board, go to www.gaphp.org, or call 1-855-MY-GAPHP.
