# Abortion and Motherhood

*“I became a mother seven months ago. By giving birth, I feel I made a solemn promise. I will be responsible for the physical, emotional, and spiritual well-being of this beautiful little creature for the next 18 years and beyond. I will put her needs first, I will always think about her welfare, I will make sacrifices for her. This is the promise we celebrate on Mother’s Day. Many women keep this promise by having abortions.”*
