Office staff was awesome! However, I have never been to a doctor who was so cold. I expressed concerns about my lower back and he acted as if I had not said anything at all. He left out and said he would be right back and never returned, but instead his nurse returned with all types of prescriptions in which I had already expressed that I had prescriptions that I don't like to take because I am not a medicine person, but chose to visit him because of his practice of the body self healing. I probably will NOT ever return here! So much for finding a primary care physician in GA via ZOC DOC! I'll take that 6 hour drive back to MS on my sick bed if need be!

Although I was disappointed at the staff originally and voiced my frustration to Dr. Williams, I love Dr. Williams responsiveness to my concerns. He quickly sent Scottie to see me and Scottie gave me her direct extension to reach her if I ever need anything in the future. All is well with my visit and will continue to take my Mom back to see Dr. Williams.

The visit was good, I got there and my appointment was not in the system, however I did not have to reschedule, I was seen in less than an hour which I really appreciated

He was horrible.. He wasn't at all professional. I was there for myself on one day and had to take a urine sample for test I placed it in the holding spot and received my test results that all was fine. Two days later I returned with my kid and proceeded to use the restroom and found my same cup in the holding window untouched in the same exact spot and place I left it. So that meant that I was never correctly tested and my results were false. Never will I return or will I ever suggest any one else to!!

ok, Wish he would have been into what my overall needs were. I changed my health plan and made him my preferred doctor. I was told by his office that I was required to do that in order to see him.
