physicians
and providers

ppo

February 25, 2014

INTRODUCTION

This regional directory lists the physicians and healthcare facilities in the Blue Shield of California PPO network and the Blue Shield Life Provider Network.

All of the providers in this directory have agreed to accept our payment, plus any applicable coinsurance or co payments for which you may be responsible, as payment-in-full for the covered services described in your plan's *Evidence of Coverage or Certificate of Insurance*.

Making quality part of the equation

We have made quality measures an essential part of how we categorize hospitals. We use quality data compiled from two leading independent performance initiatives: the Leapfrog Group survey, which focuses on hospital quality and safety practices, and the hospital performance ratings used by the California Hospital Assessment and Reporting Taskforce (CHART).

The Leapfrog Group is an initiative driven by organizations that buy health care who are working to initiate breakthrough improvements in healthcare safety, quality and affordability. The Leapfrog Group's growing consortium of major companies and other large private and public healthcare purchasers provide health benefits to more than 37 million Americans in all 50 states. The Leapfrog Group survey is a voluntary program in which hospitals report on the quality and safety practices they have implemented.

CHART was established in 2004 to develop a statewide hospital performance reporting system built around multi-stakeholder collaboration including health plans, hospitals, and employer groups. It produces a standardized California hospital quality report card and supports hospital quality improvement efforts through standardized quality reporting and the ongoing introduction of new quality measures. CHART is a voluntary project in which hospitals are rated on over 70 performance indicators, including patient satisfaction measures and specific conditions such as heart disease, surgical infection prevention, and pneumonia.

When you look at a hospital's listing in this directory, you'll be able to see whether that facility participates in the Leapfrog Group and CHART programs. You'll also see codes that can help you determine the hospital's relative cost.

Please note that the cost of a hospital's care does not necessarily determine its quality of care. We determine a hospital's relative cost by comparing patient care costs for certain illnesses and procedures at all network hospitals in that geographic area.

The number of dollar signs associated with a hospital will indicate how expensive that hospital is, in general, compared with other similar hospitals in the network. One dollar sign (\$) indicates the lowest cost, and four dollar signs (\$\$\$\$) indicate the highest cost.

\$ - Lowest cost hospital

\$\$ - Lower cost hospital

\$\$\$ - Higher cost hospital

\$\$\$\$ - Highest cost hospital

You may want to discuss this information with your doctor when making decisions about hospital care.

We will continue to work closely with hospitals on quality measures to provide you with valuable information and enable you to make informed decisions about your care.

If you have any questions about any of our hospitals, call the Customer Service number shown on your Blue Shield of California or Blue Shield of California Life & Health Insurance Company (Blue Shield Life) member ID card.

Urgent care providers

To lower your healthcare costs, you should use the urgent care providers
