Dr. Naliboff was very nice and efficient! Her staff seemed upbeat and my routine check up went quickly. No complaints!

Office is nice-waited half an hour. Had male dr which I wasn't expecting, and wouldn't have chosen, but he was respectful.

Dr. Naliboff isn't a bad doctor but I had an absolutely horrible experience with her staff. They are completely unwilling to help or give advice. When I asked to speak to the doctor when she's done seeing patients for the day, they refused and told me told me they could only relay what the nurses told them

Excellent new patient experience. Dr Naliboff and her team are friendly and informed. I feel confident that she and her office will take the very best care of me.

I was provided with the utmost medical care, respect and professionalism by the doctor. I would highly recommend this office. The entire staff was amazing and extremely compassionate to my medical needs.

October 10, 2019 · Dawn G. · Verified patient

They "FORGOT" to tell me about the results of an important test which led to a procedure at that clinic. Dr Naliboff is the most incompassionate Doctor that I have ever visited. She never explained to me about the complications of my condition even I asked her several times, I had to Make Her Talk! And once she asked me if "I am recording our conversation " !!!!! :(

Easy and quick. I will definitely see her again!

The first time I was supposed to have an annual exam with another doctor, the office I went to gave me a horrible experience that I ended up leaving before the appointment. I found Lauren on here as she is right by my job and got great reviews. My appointment was at 3pm but I got there

around 2:30pm and was taken immediately. She gave me a great experience and great information on birth control. Will definitely be coming back!

Second time going and doctor and staff has been very very nice! The wait wasn't long at all. I feel very comfortable when I come and talking to the wonderful staff.

August 2, 2019 · Simone J. · Verified patient

Great office staff, friendly. Had a later appointment but they called me to see if I would want earlier to ensure I would see the doctor which as a new patient I appreciated. Very efficient, Lauren was very friendly and made me feel comfortable for my annual exam.

I arrived 40 minutes before my appointment and the receptionists were extremely friendly and accommodating. They were able to get me in 10 minutes earlier. Lauren was fabulous. Very direct and to the point, while also having the patience to talk through questions very thoroughly. I searched on ZocDoc for hours trying to find a gynecologist because this is the doctor you especially want to feel comfortable with. You will always see bad reviews, and hear about long waits. My experience with Lauren was great and I'm glad I ignored anything that said otherwise.

I got to the office 45 minutes before my appointment as I had read that this office can have very long wait times. After filling out my paperwork, I was seen very quickly. Dr. Naliboff answered all of my questions and was very friendly. I will be returning for my care in the future.

It was a quick and short visit. The nurses are were super friendly, as well as, Dr. Lauren. They answered all my questions and made me feel welcomed and calm.

May 13, 2019 · Johanna T. · Verified patient

Clean, very friendly and professional staff. For a first time visit it was fairly quick. My procedure was quick but the wait was a little bit long. Overall I would revisit. Thank you for seeing me on such short notice

My doctor explained everything in detail and provided high-quality care. Woud definitely recommend this doctor. Office staff and phlebotomists are very professional and have warm, inviting personalities. Thank you Parkmed!

Very nice respectful & professional!

Dr. Naliboff is friendly and approachable, though most of her PAs aren't as warm. But the receptionist is also super sweet, and I only had to wait a short while before my appointment.
