About Rebecca L Rosen, MD □

Bio

Rebecca L. Rosen, MD, is a board-certified family medicine doctor. She provides primary care for patients of all ages, including preventive care and treatment of acute and chronic diseases.

Dr. Rosen chose family medicine because she wanted to care not only for the whole patient, but also the whole family. She has a strong interest in providing care for women's health, including prenatal care, and pediatrics. She has over 13 years of experience delivering babies.

By caring for the whole family, Dr. Rosen gains insight into her patients' lives outside of the doctor's office. She feels that connecting with patients and understanding who they are fosters a relationship that allows her to better

help them achieve wellness.

Dr. Rosen earned her medical degree at Temple University and is a member of the Alpha Omega Alpha national medical honor society. She is board certified in family medicine.
