Disclaimer: The John Muir Health Find a Doctor search tool lets you search for doctors and other providers based upon certain criteria, and returns a list of providers who satisfy those requirements. Providers do not pay a fee to be included in the search results. All providers included in the search results are either members of the John Muir Health Physician Network or are non-primary care specialists who are active medical staff members at a John Muir Health medical center. A provider's listing on our Find a Doctor search tool ends when the provider is no longer a member of the John Muir Health Physician Network, or no longer has active medical staff status. The information displayed about this provider is not confirmation that they have contracted with your health insurance plan. You should confirm coverage directly with either the provider's office or your health insurance plan. Some providers may have more than one affiliation, and not all providers affiliated with a John Muir Health facility are members of the John Muir Health Physician Network. Information displayed here is subject to change. We strongly encourage you to confirm this information with the provider upon your visit or call their office. Providers listed here are not employees of John Muir Health. We offer this online directory as a community service. To the physicians: To request an update to your information displayed on this page, please contact us.
